Introduction

The pricing structure is derived from the current Microsoft pricelist, any amendments to Microsoft's pricing will be duly incorporated into our own price list. To obtain an updated quotation tailored to your specific requirements, kindly reach out to us.

Please be aware that there are supplementary licenses offered by Microsoft 365 which we can provide a quotation for as well.

Professional Services

Determining the cost of cloud professional services is a complex process based upon the specific enablement services and corresponding volumes required by customers. Based on the Skills for the Information Age (SFIA) rate card, iomart as a trusted partner will create a bespoke proposal based on customers' requirements. These services are offered at a fixed price or time and materials in accordance with predetermined requirements.

Please use (SFIA) rate card for consultancy charges.
