

Who are we?

We are a healthcare digital transformation company committed to driving positive change in the NHS and beyond. Empowering Transformation through a unique approach and comprehensive Services!

We bring a powerful approach to drive positive change in healthcare, we stand out by recognising that our success lies in the exceptional individuals who make up our team. We are on a journey to build a brand that is defined by a team of dedicated professionals, with their deep expertise and unwavering commitment to healthcare transformation.

What do we do?

We offer comprehensive interim management services to healthcare organisations, providing expert leadership & strategic guidance during crucial transitional periods, specialising in:

Project Resources: Agile and flexible support for seamless project integration. From programme & project managers to change leads & trainers.

Subject Matter Expertise: Our experts provide valuable insights across key workstreams like business cases, procurement, and technical infrastructure.

Strategic Advice: We also offer strategic advice & guidance to ensure effective decision-making and governance for large-scale digital and transformational programmes. Our expertise in board assurance helps you navigate complexities, mitigate risks & bring together key stakeholders to ensuring successful outcomes.

We can provide resource, support, guidance and end- to-end implementation for healthcare organisations across various capabilities:

- Electronic Patient Records (EPR)
- Diagnostics: RIS/PACS

- Pathology LIMS / Order Communications
- Medication Management (EPMA)
- Electronic Observations
- Clinical Decision Support Systems
- Specialist Departmental Clinical Systems
- Shared Care Records
- Patient Portal
- Electronic Document Management
- Data Migration & Analytics
- Information Governance / Privacy
- Infrastructure & Cloud
- Integration

Procea works closely with you to ensure project success and address your evolving needs. Furthermore, our subject matter experts, including business case lead, procurement lead, clinical application specialists, infrastructure & integration architects and data migration specialists all bring their expertise to work closely with your team, providing valuable guidance and direction.
