# 1 PRICING

---

Please find the following pricing information for Intelligens Consulting under the G-Cloud Framework Lot 3 Cloud Support:

## 1.1 SERVICE COST

The service cost is based on the number of days of support required. Day rates range from £500 to £1,500 per day, depending on consultant skills and seniority, full details can be found in the SFIA Rate Card document.

## 1.2 PROPOSAL

A detailed proposal will be provided to the client once support requirements are understood. The proposal will outline the resources and associated costs for delivering the support.

## 1.3 SUPPORT DELIVERY

Support can be provided on a time and materials or fixed-cost basis, as per the client's preference.

## 1.4 DAY RATES

Day rates cover an 8-hour working day, excluding travel and lunch. Rates vary based on consultant skills and seniority, with higher rates for more experienced consultants.

## 1.5 EXPENSES

Expenses incurred will be billed separately at standard travel and subsistence rates.

## 1.6 INVOICING

Invoicing terms will be agreed upon with the client, either monthly in arrears or based on milestones/deliverables.

## 1.7 DISCOUNTS

Volume discounts may be available for larger projects or long-term engagements.

However, day rates under the G-Cloud framework are already competitive to ensure best value for all customers.

## 1.8 SECTOR-BASED PRICING

Intelligens Consulting does not differentiate between sectors in its pricing approach. The same day rates apply regardless of the client's sector.

This pricing schedule is subject to negotiation and may vary based on specific project requirements and client preferences.
