G-Cloud 13 Service Brief

KE Technology Project Solutions
Tech Solutions Delivered for you

- ✓ End Goal Driven
- ✓ Cost Effective
- ✓ Fixed Price
- ✓ Fully or Part Managed
- ✓ Milestone Driven
- ✓ Project Assurance

At KE Technology, we believe in a straightforward approach to project delivery. Our core tools? Honesty, integrity, and experience.

With a team of seasoned consultants located across the UK, we specialise in managing, deploying, and integrating projects to meet your objectives. From inception to completion, we work closely with you, charting a clear path aligned with your organisational aims.

Expect regular updates and thorough risk assessments through weekly, bi-weekly, and monthly reports, ensuring everyone stays informed and engaged throughout the journey to success.

Areas of Expertise:

- Development; Ruby on Rails, Python, JavaScript, React Native, Typescript, PHP, Scala, Elixir, Golang, Rust, C#, .Net Development
- Artificial Intelligence and Machine Learning
- DevOps, Platform Engineering and SRE
- Data (Engineering & Science)
- Security (Application & Cloud)
- QA & Testing

Our Promises:

- ✓ We will scope and cost the project free of charge
- ✓ Agree clear measurable milestones
- ✓ No increase in costs based on the initial agreed scope
- ✓ Underspend will be refunded
- ✓ No hidden costs

For a free quote on your project please email *info@ketechnology.io* or contact your dedicated consultant and we will put an initial proposal together within 48 hours.
