Pricing Approaches

As part of our ongoing ethos to help Clients find the best value for money in any services they procure, Integrity will work to develop the most suitable pricing approach for their needs.

These different approaches may include:

- Fixed priced contracts
- Service fee-based contracts
- Time and materials
- Capped time and materials
- Risk share / gain share

The pricing approach to be used will be agreed in advance as part of any initial engagement and formalised during the purchasing stage.

Pricing

Services will be priced per the attached SFIA Rate card.

The SFIA Rate Card (available as a separate attachment, downloadable from the service web page) lists the day rates applicable to the services

Prices quoted on the SFIA Rate Card represent the maximum rate charged for each skill/responsibility level for UK based resources

It is possible to deliver some services through our near-shore/off-shore delivery centres at reduced rates

All prices are quoted without volume or combination discounts. Discounts may apply where the volume or work combination is appropriate but will be subject to negotiation and agreement during the purchasing stage.

About Integrity

Integrity are a Consulting, Digital Transformation and IT Quality business helping Life Science companies innovate & transform within a regulated world

We are technology and quality experts that enable our customers to successfully and confidently plan, manage, deploy and adopt new technologies within a regulated environment. We are passionate about helping our customers innovate and advance treatments for the well-being of the society.

Our strategies and solutions dramatically accelerate drug and device development, as well as optimise manufacturing, supply chain and quality processes. By combining intelligent risk-based thinking with real-world expertise, we efficiently implement digital solutions in accordance with regulatory expectations.

We are your partner and your expert, helping you implement the right projects in the right way – delivering change you can trust.

Focusing on root cause, delivering right sized solutions to meet client's needs and problems

Highly skilled professionals providing a blend of business knowledge and subject matter expertise

Working to any scale with local and global resources.

Pragmatic, risk focused advice and support.

Quantifiable benefits through careful evaluation of business problems & effective management of solution delivery

Change you can trust.
