

# Service Definition Document - G-Cloud 14

# 1Cypher

SECURED BY DESIGN | PROTECTED BY EXPERTISE

# Service Definition

1Cypher boasts extensive knowledge and expertise in delivering secure systems and solutions tailored to government security classifications, covering Public Cloud, Private Cloud, and SaaS technologies. Additionally, we hold Cyber Essentials certification.

We offer highly skilled technical architects and specialists adept at designing and implementing systems across secure architectures. Our capabilities include High Threat (High Assurance) cross-domain gateway components, virtualized and containerised components, secure networks, and encryption technologies to support enterprise mobility, messaging, real-time communications, and information exchanges.

Understanding the technical and commercial intricacies involved, we excel in assisting clients and SMEs, providing technical input and ensuring seamless integration of new technologies into secure system architectures. 1Cypher has a proven track record of managing enduring relationships with multiple vendors and suppliers in the secure technology space.

# Our Service Offerings

## Secure Architecture Services

Protect your digital assets with confidence using our Secure Architecture solutions. Our team of seasoned architects specializes in designing robust and resilient security frameworks tailored to your unique requirements. From threat modelling to risk assessment and beyond, we'll ensure your infrastructure remains secure against evolving cyber threats.

## Public & Private Cloud Services

Embrace the power of cloud computing with our Public & Private Cloud solutions. Whether you're looking to migrate to the cloud or optimise your existing cloud environment, we'll work closely with you to develop a customised strategy that meets your business objectives. With our expertise in cloud architecture and deployment, we'll help you unlock new levels of agility, scalability, and cost-efficiency.

## Windows Server, Linux & Docker Containers

We leverage advanced data analytics tools to provide valuable insights, empowering businesses to make informed decisions and drive strategic initiatives.

# Our Service Offerings

## Identity Solutions and PKI Expertise

Protect your digital assets with confidence using our Secure Architecture solutions. Our team of seasoned architects specializes in designing robust and resilient security frameworks tailored to your unique requirements. From threat modelling to risk assessment and beyond, we'll ensure your infrastructure remains secure against evolving cyber threats.

## Platform Services

Embrace the power of cloud computing with our Public & Private Cloud solutions. Whether you're looking to migrate to the cloud or optimise your existing cloud environment, we'll work closely with you to develop a customised strategy that meets your business objectives. With our expertise in cloud architecture and deployment, we'll help you unlock new levels of agility, scalability, and cost-efficiency.

## Digital Transformation Consulting

We leverage advanced data analytics tools to provide valuable insights, empowering businesses to make informed decisions and drive strategic initiatives.
