

KunKun GCloud Pricing

We will charge using the day rates set out in our GCloud rate card or quote fixed prices for specific pieces of work based on those rates.

Expenses are charged from consultants' offices at standard rates (e.g. 45p per mile or standard class rail travel).

Firm prices

Where a firm or fixed price is quoted, it will be subject to a number of conditions. We will discuss with the client if we believe any of these conditions apply:

1. Stable and agreed scope and KunKun control over delivery (including resource)
2. External dependencies outside KunKun's reasonable control may affect timescales and resource levels, including availability of funding and performance of any third parties such as the client's other advisers or suppliers
3. Effective support from the client to schedule meetings and venues for meetings
4. Prompt and effective review by the client of documents/proposals/other deliverables
5. Work from consultants' own offices, with attendance at meetings in client sites where reasonably required and with reasonable notice
6. Client finance and HR support for related internal process
