KunKun Analysis of Transport Cloud Data

Service description

KunKun works in bus and rail with data from cloud based ticketing and financial systems to help develop and deliver fares and service schedule changes.

Our consultants have helped develop concessionary travel schemes and appraise potential fare changes. We have worked with the major ticketing cloud suppliers and major operators, and a strong understanding of the regulatory environment and options.

KunKun can access data from Google and mobile networks and combine with data from Ticketer, CitySwift and EP Morris to provide insight.

We can visualise data in Tableau, PowerBI, Access, Excel.

Pricing

KunKun can either charge time and materials or fixed price.

Ordering and invoicing

KunKun bills monthly in arrears, invoicing on delivery of work packages or monthly for T&M work.

Support

KunKun offers support by email.
