About Amethyst

Amethyst Risk Management Ltd was formed in 2007 with an ethos of integrity and trust. As Information Assurance and Cyber Security professionals, Amethyst has supported Government, MOD and commercial clients. Our unique approach is proportionate to our client's business objectives, their strategic requirements and level of risk appetite. All of our Information Security Professionals are cleared to access information protectively marked up to TOP SECRET (Developed Vetting). The benefits of using Amethyst include:

Over a decade of delivering cyber support

Flexible, responsive support (Agile and Waterfall)

Commitment to the training and development of our staff

Continual innovation and cost optimisation

World leading subject matter expertise

Commitment to collaboration and knowledge transfer

Bespoke solutions, proportionate to business objectives

Vendor agnostic

Our commitment to Quality and Information Security is evidenced through our continued ISO certification. Amethyst is certified to ISO 9001, ISO/IEC 27001 and CE+.

Amethyst has a strong and extensive background of successful delivery and support to a wide variety of public and private sector organisations. In the public sector the Amethyst team have completed assignments across a broad range of departments. Our private sector experience includes, but is not limited to, support for Law Firms, Data Hosting Companies, Aerospace, Defence Industries, Telecommunications, Retail and other organisations including those that form the UK Critical National Infrastructure.

We have developed a reputation for succeeding on difficult projects where others have failed; delivering to time and budget, without compromising on quality.

We will take ownership of the task throughout its life and proactively manage the key relationships to ensure the transparency of all decisions and the delivery of a quality product or service. With our expertise and comprehensive range of consulting and training, Amethyst helps clients identify and understand information risk so it can be reduced and successfully managed.
