

ATOS SUPPLIER TERMS FOR G-CLOUD14

PART A – MAIN

1. INTRODUCTION

1.1 The Supplier Terms set out in this document shall form part of the Call-Off Contract and the Order Form, hereinafter collectively referred to as the “**Call-Off Contract**”. The Parties acknowledge that they are relying on the order of precedence set out in Clause 8.3 of the Framework Agreement as incorporated by Part B Clause 2.1 of the Call-Off Contract in the event of a conflict between the documents referred to in this section.

1.2 The Supplier Terms have been split into separate parts to deal with the different types of Services that can be ordered by a Buyer.

1.2.1 Parts A (Main) and F (Definitions) of the Supplier Terms shall always apply.

1.2.2 Where the Services ordered by a Buyer include or are solely cloud services, then Parts A (Main) and F (Definitions) of the Supplier Terms shall apply.

1.2.3 Where the Services ordered by a Buyer include or are solely IT consultancy, systems integration and/or support services (“**IT Services**”), then Part B (IT Services) of the Supplier Terms shall apply in addition to Parts A (Main) and F (Definitions) of the Supplier Terms.

1.2.4 Where the Services ordered by a Buyer include or are solely resourcing services on a secondment basis, then Part C (Secondment) of the Supplier Terms shall apply in addition to Parts A (Main) and F (Definitions) of the Supplier Terms.

1.2.5 Where the Services ordered by a Buyer include or are solely SAAS (as defined in Part F (Definitions) of the Supplier Terms), then Part D (SAAS) of the Supplier Terms shall apply in addition to Parts A (Main) and F (Definitions) of the Supplier Terms.

1.2.6 Where the Services ordered by a Buyer include or are solely Product and Professional Services, then Part E (Product and Professional Services) shall apply in addition to Parts A (Main) and F (Definitions) of the Supplier Terms.

1.2.7 For the avoidance of doubt, where the Services ordered by a Buyer are a mixture of cloud, IT Services, secondment services, SAAS services and Product and Professional Services, then Parts A (Main), B (IT Services), C (Secondment), D (SAAS), E (Product and Professional Services) and F (Definitions) of the Supplier Terms shall apply as relevant to the Service being provided.

1.3 In the event of any conflict or inconsistency between the Parts comprising these Supplier Terms, Part A (Main) and Part F (Definitions) shall take precedence over the remaining Parts.

1.4 Unless otherwise defined herein, all capitalised terms used within these Supplier Terms shall have the same meaning as ascribed to such terms in the Call-Off Contract.

2. DUE DILIGENCE, SERVICES, IMPLEMENTATION AND COLLABORATION

2.1 The Order Form will detail the Services ordered by the Buyer. The Supplier will provide the ordered Services in accordance with the relevant Service Definition.

2.2 If the Supplier has responded or clarified matters in relation to the provision of the Services in a tender as required by Clause 3 of the Framework Agreement and these responses are not already covered in the Service Definition then the Supplier's response section of the tender applies and is subject to any assumptions and dependencies raised by the Supplier within the tender. The Supplier will attach its responses to the Order Form. For the purposes of Clause 8.3 of the Framework Agreement, as incorporated by Part B Clause 2.1 of the Call-Off Contract, if there is any conflict or ambiguity between the Service Definitions, tender response or the Buyer's questions then the order of precedence will be: (a) Service Definitions; (b) Supplier's responses in a tender; and (c) Buyer's questions.

2.3 Where the Parties have agreed to an implementation plan and/or an exit plan and off-boarding plan in the Order Form, the Supplier shall use its reasonable endeavours to meet the implementation plan and/or exit plan and off-boarding plan and milestone dates (if any) agreed with the Buyer in the Order Form. The implementation plan and/or exit plan and off-boarding plan and milestone dates are subject to any assumptions and dependencies the Supplier has raised with the Buyer and to the Buyer's compliance with the Buyer responsibilities.

2.4 In the event that at the Commencement Date the Parties are not able to adequately define the Buyer's requirements for any of the Services then both parties acknowledge that the scope of the Supplier's efforts may change. In such circumstances the initial phase of the Supplier's efforts will be recorded in an Order Form as the preparation and finalisation of the requirements for such Services by the Supplier with all such assistance from the Buyer as the Supplier may reasonably require.

2.5 The requirements for such Services determined in section 2.4 of Part A (Main) of the Supplier Terms shall form the basis of a new Order Form to be agreed between the Parties which shall identify and provide specific information in a level of detail sufficient to allow the Supplier to perform the required Services. These finalised requirements shall represent the Buyer's finalised statement of the Buyer's requirements and shall supersede all previous descriptions or statements of requirement. In the event that a contradiction, conflict, or inconsistency between prior statements of requirements and a later approved statements of requirements, the contradiction, conflict, or inconsistency will be resolved in favour of the latest approved statements of requirements.

2.6 The Parties acknowledge that the Supplier has established the Services, the Service Definitions, the Service Levels, any implementation plan / on boarding or off boarding plan (including any associated milestones) and the Charges based upon the assumption that the Services (and their costs of delivery) will not change as a function of the operation of Brexit (including by way of any action taken by either the United Kingdom or by the European Union and/or any of its member states following Brexit, or by means of any agreement effected by the United Kingdom and the European Union following Brexit). Should this assumption prove to be untrue the Supplier shall be entitled to make reasonable and proportionate adjustments to the Services, the Service Levels, the Implementation Plan (and any associated milestones), the Charges and otherwise pursuant to the Variation process in Part B Clause 32 of the Call Off Contract, and the Buyer shall not unreasonably withhold or delay its assent to any such adjustment.

2.7 No liquidated damages will apply to the Services unless specifically agreed to by the Supplier in the Order Form. If any are agreed in the Order Form then payment of any liquidated damages for failing to meet milestones will only apply to a failure to meet a critical milestone date that is agreed by the Parties, the amount payable will be limited to a maximum threshold proposed by the Supplier, the liquidated damages will only apply if the delay is solely attributable to the Supplier and will be the Supplier's sole financial liability for that delay. Any payments made by the Supplier will be deducted from the overall figure set for the Supplier's limitation of liability.

2.8 If in the Order Form the Supplier is required to sign a Collaboration Agreement, then the Supplier will agree with the Buyer the terms and conditions of such Collaboration Agreement, the identity and the number of Buyer's contractors involved, the assistance required and which information will be shared with them. The Supplier may: (a) charge for any collaboration or assistance required; (b) request the Buyer to ensure the relevant third party signs an appropriate confidentiality document; (c) require the Buyer to sign an appropriate licence agreement to share any know-how or intellectual property rights belonging to the Supplier or its licensors with the Buyer or third party; or (d) reject any collaboration as the third party involved is a competitor of the Supplier.

3.1 In respect of Service Elements that the Buyer accesses and/or uses as part of, in connection with or as a Service, the Supplier shall freely be entitled but not obligated to issue at its sole discretion Updates, Upgrades and/or substitute New Versions, which may or may not include any New Functionality thereto at any time at its discretion.
