

Pricing

Our pricing for all G-Cloud 14 support services is based on a time and materials commercial model, unless a service specific pricing document is provided. Our consultants are assigned at the appropriate daily rates contained in our G-Cloud SFIA rate card, plus VAT and reasonable expenses where applicable and allowed.

Volume discounts

Equal Experts offers a variety of discounts on our standard SFIA rates based on committed volume of work across an agreed term. Where offered, these discounts will also be offered to other clients with similar requirements.

Volume discounts are only eligible where clients have agreed to 30 day payment terms and have issued timely purchase orders.

Sector pricing

We are happy to offer a 5% discount to educational institutions. Where the 5% educational institution discount is applied, no volume discounting will be given.
