

MICROSOFT 365 READINESS ASSESSMENT

Professional Services

WHY CDW?

CDW is a leading workspace solutions provider. This is underpinned by CDW holding many of the highest partner accreditations for the top workspace partners such as Microsoft.

FOCUS ON CUSTOMER SATISFACTION

CDW has the capabilities to architect, implement, and support workspace solutions to meet your business needs.

CDW offer a range of workspace professional services including:

- Windows 11 Hardware Readiness
- Windows 11 Application Readiness
- The Road to AI Adoption
- Mobile Device Management Assessment
- Microsoft Intune / Configuration Manager Assessment
- Microsoft 365 Security Assessment

The Microsoft 365 Readiness Assessment is a Professional Services delivered engagement that provides a review of a customer's current environment and includes a report alongside recommendations on how to migrate their existing environment to Microsoft 365, best meet requirements and optimise business goals.

WHAT IS THE MICROSOFT 365 READINESS ASSESSMENT?

CDW will perform a review of your existing environment analysing the following key areas:

- Capturing Topology diagrams.
- Domain Services health.
- Messaging health.
- Mailbox sizing.
- Capturing of any third-party dependencies.
- Identity configuration and health.
- Federation Services configuration and health.

WHO IS IT FOR?

The Microsoft 365 Readiness Assessment is aimed at customers moving to Microsoft 365 from their current on-premises, hybrid or cloud environment.
