Benefits of working with us

Dedicated Public Sector Division

Our Public Sector domain experts are highly knowledgeable of the challenges faced by Public Sector organisations and has many years of experience providing services to enable them to achieve their Cloud based business objectives.

Extensive Network of Cloud Expertise

The UK's largest network of cloud experts ensures the fast delivery of high quality resources and optimum value for money.

Security Expertise

As an organisation holding Facilities Security Clearance, we initiate and hold Security Clearances up to DV level and ensures that all personnel have the correct level of clearance prior to deployment

Flexible Delivery Models

The use of Time and Materials Models or, where the requirement is sufficiently defined, through a Work Pack or Statement of Work ensures that the service is always delivered in the most cost effective and efficient manner.

Quality Assurance and Service Maturity

As an ISO9001 and ISO27001 certified organisation, we consistently deliver an extremely high quality of service
