

# G-Cloud 14 Service Description

Enterprise and Technical Architecture

## Enterprise and Technical Architecture

Methods can help you design, implement, embed and improve your Enterprise Architecture capability. We have a team of Enterprise Architects qualified in TOGAF, Zachman and ArchiMate. We focus on delivering innovative, achievable and sustainable solution patterns that ensure adherence to WAFs, NCSC CAF, GDS Service Assessment and Gov Assure.

## What is the Service

Methods can help you design, implement, embed and improve your Enterprise Architecture capability. We have a team of experienced Enterprise Architects qualified in TOGAF, Zachman and ArchiMate; and familiar with public cloud platforms and technologies.

Methods offers a range of architecture services to plan, design and deliver architecture governance frameworks including Business Architecture, Enterprise Architecture, Platform Architecture, Application Architecture, Solution Architecture, Data Architecture and Technical Architecture.

We focus on delivering innovative, achievable and sustainable solution patterns that help reduce time to market whilst ensuring adherence with compliance frameworks such as vendors' WAFs, NCSC CAF, GDS Service Assessment and Gov Assure.

## What can it do for you

Effective Enterprise and Technical Architecture capabilities can help connect business and technology strategies, assure design, engineering and security work; improve efficiency and align with industry standards.

## Service Features

- 1. TOGAF accredited Enterprise Architects
- 2. Zachman Enterprise Architects
- 3. Archimate Enterprise Architects
- 4. Business Architecture
- 5. Enterprise Architecture
- 6. Technical Architecture
- 7. Platform Architecture
- 8. Application Architecture
- 9. Solutions Architecture
- 10. Data Architecture

## Service Benefits

- 1. Innovative, achievable and sustainable solution patterns
- 2. Reduce time to market, cost of IT and risk to service and delivery
- 3. Ensuring adherence with vendors' Well Architected Frameworks
- 4. Ensuring compliance with NCSC CAF, GDS Service Assessment and Gov Assure

## Contact details

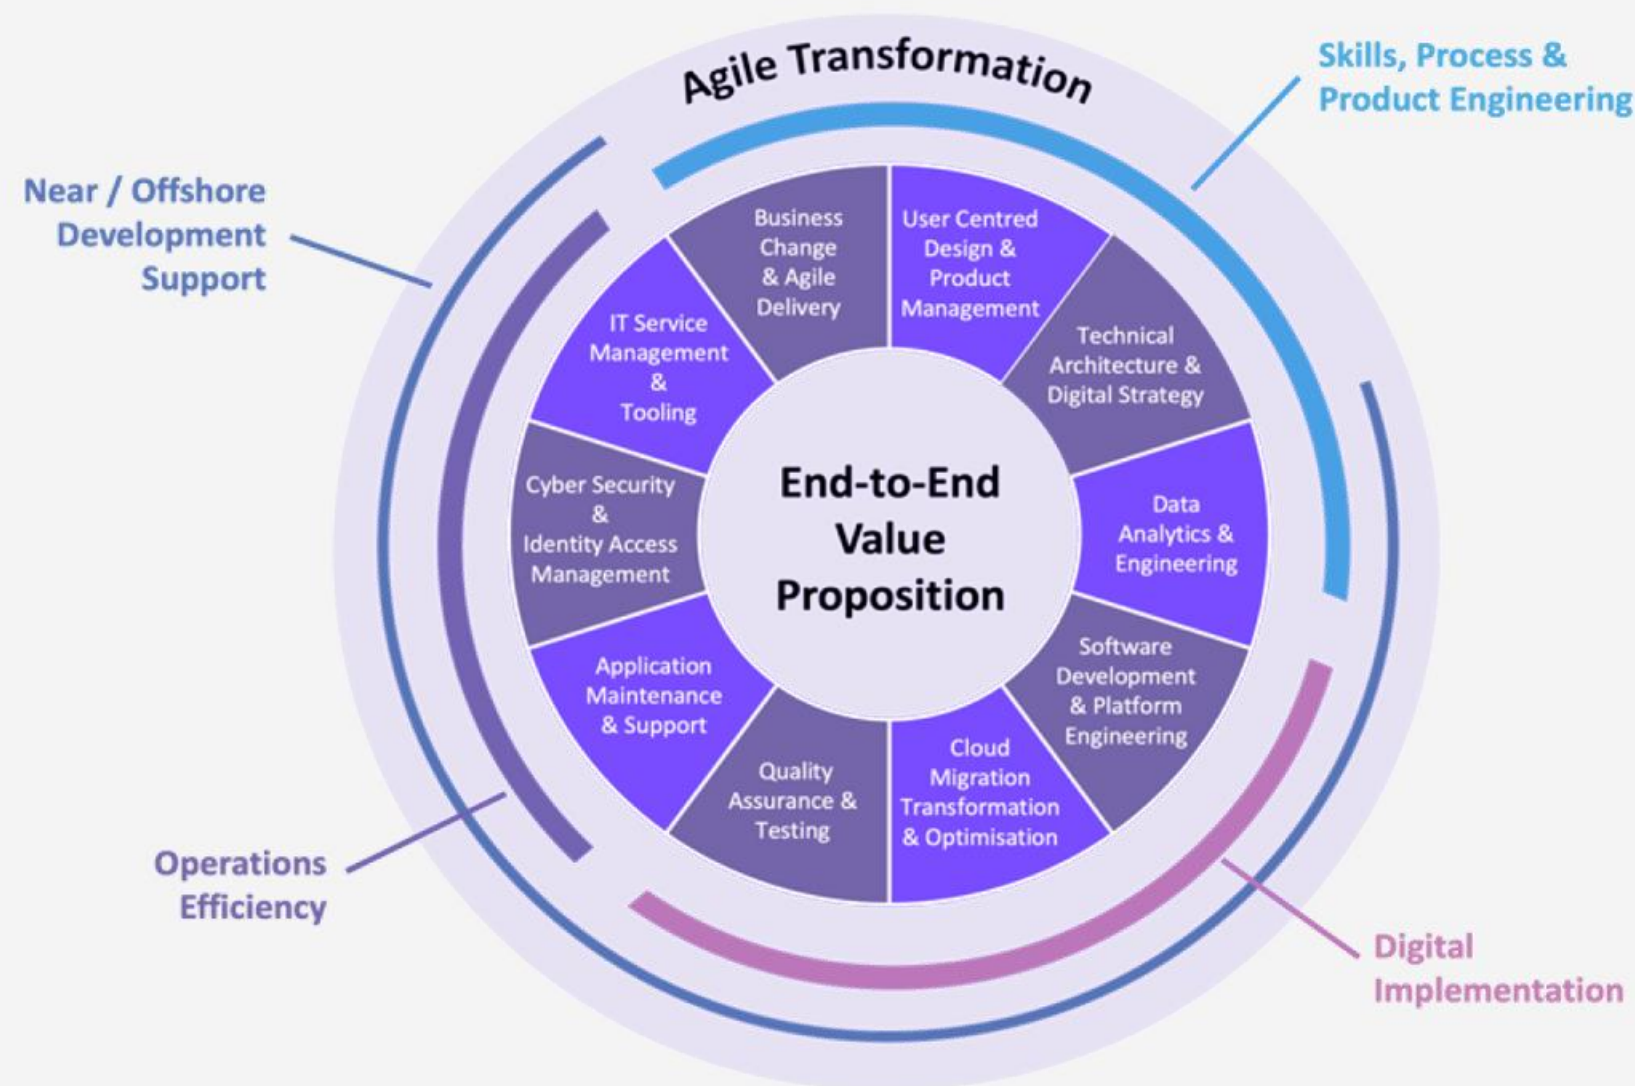

# End-to-end transformation and innovation experts

Applying our skills in innovation and collaboration from across the Methods Group, to deliver end-to-end business and technical solutions that are people-centred, safe, and designed for the future.

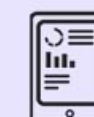

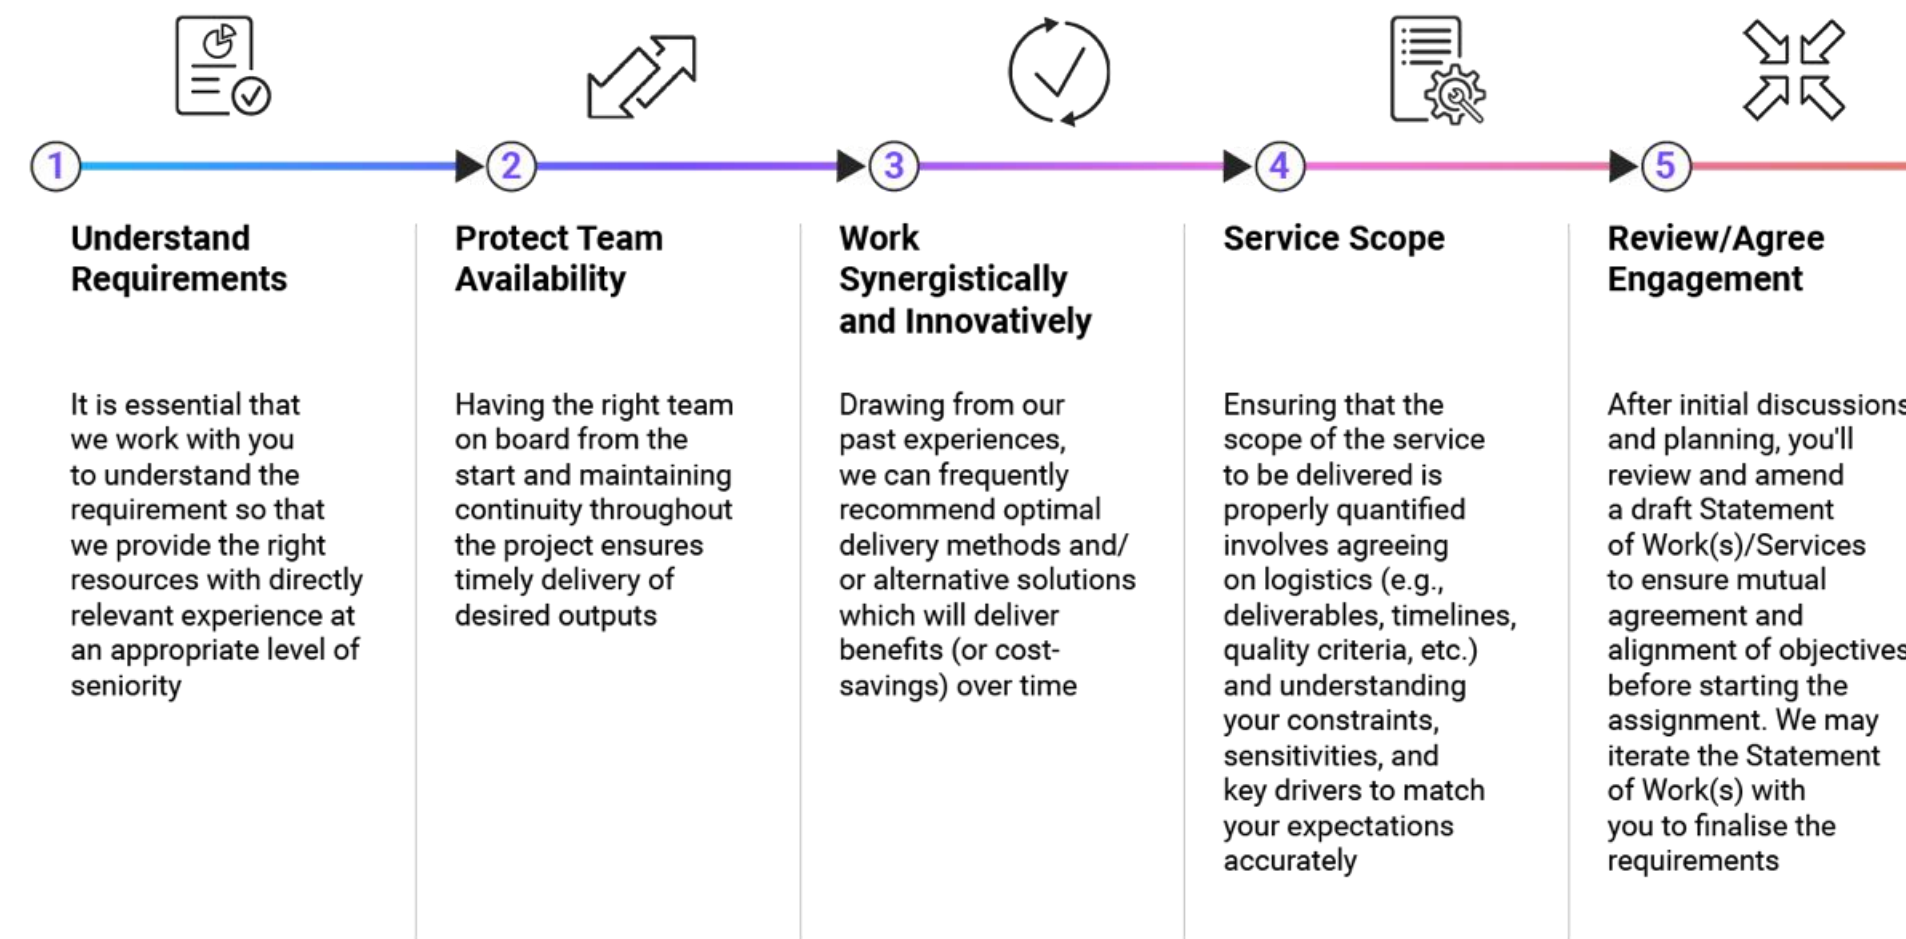

Methods provide collaborative and innovative solutions to help Central Government adapt to the changing landscape and deliver better outcomes for citizens.

With a focus on driving interoperability and innovation in UK Central Government, we have helped multiple organisations in the sector modernise their IT architecture, systems, strategy, and operating models to improve organisational resilience and service delivery.

Methods deliver wide-ranging services and thought leadership to support delivery including:

## Onboarding and offboarding process

### Ordering and Invoicing

Once we have agreed a Statement of Work(s) we will sign the appropriate agreement and complete a Call Off contract with an attached Statement of Work(s), and submission of a Purchase Order. We will then set up a mutually acceptable start date and commence work.

Payment terms are 30 days or less as may be agreed.

Please note - we are unable to accept Government Procurement Card (GPC) payments.

### Customer Responsibilities

For any given requirement, we will identify any dependencies on the customer (e.g. access to key stakeholders, facilities, documentation, etc.) and agree these at the start of the work.

# Making a difference

The work we do each day is focused on delivering a positive difference for the public sector for the benefit of society as a whole.

# Customer stories

Stopped a Central Government high-severity Cyber threat in its tracks with a Threat Management solution that continuously monitors the security posture and responds to active cyber security incidents and vulnerabilities fast

Simplified 230+ service offerings with no disruption to live service to deliver service management maturity that was standardised to be more efficient, and optimised to reduce cost at a critical time for HMCTS

Put nature at the heart of government decision-making using digital and AI innovation to explore 21 natural capital ecosystem assessments with Defra

Reduced service costs by 60% through the design and transition of Robotic Process Automation of 1.2M service billing transactions per month at NOS Telecoms Cabinet Office

Enabled the delivery of 4.7M care and food supplies to people who were at the highest risk from COVID-19 through the development, delivery, and maintenance of the Shielding Vulnerable People service at the Cabinet Office

Increased speed and traceability of annual education funding allocations by transforming the Funding Service at ESFA in the DFE
