

G-Cloud 14 Service Description

FinOps

FinOps

Methods will assess and document your cloud workloads and delivery cultures including cloud architecture, licensing, delivery model, efficiency and cloud consumption. Methods’ report will provide recommendations for re-architecture of the product and delivery pipeline to use cloud-native technologies, DevOps cultures and automation, minimising TCO and maximising efficiency.

What is the Service

Methods can help you assess your cloud workloads and provide documented reports to either support or improve your cost efficiency. We will assess architecture of the product including its cloud architecture, licensing, delivery model and efficiency and cloud consumption. We will look at the value derived from a product and its delivery.

Methods will provide a report that provides recommendations for re-architecture of the product or its delivery pipeline to use cloud-native technologies, DevOps cultures and automated pipelines, and return-on-investment efficiency through cadence improvements to ensure the minimum TCO and maximal efficiency.

Methods can help transform your business culture to one cloud native first architectures and continuous improvement.

What can it do for you

Methods will improve the efficiency of your cloud consumption and embed a culture of continuous improvement that periodically re-assesses technologies and landscape to ensure the minimum TCO and maximum delivery cadence and quality.

Service Features

- 1. Well-Architected Reviews
- 2. Cloud Cost Analysis
- 3. DevOps Maturity Assessment

Service Benefits

- 1. Help you minimise cloud costs
- 2. Help you create a culture of continuous improvement
- 3. Help you improve DevOps maturity
- 4. Help you understand cloud costs through analysis

Contact details

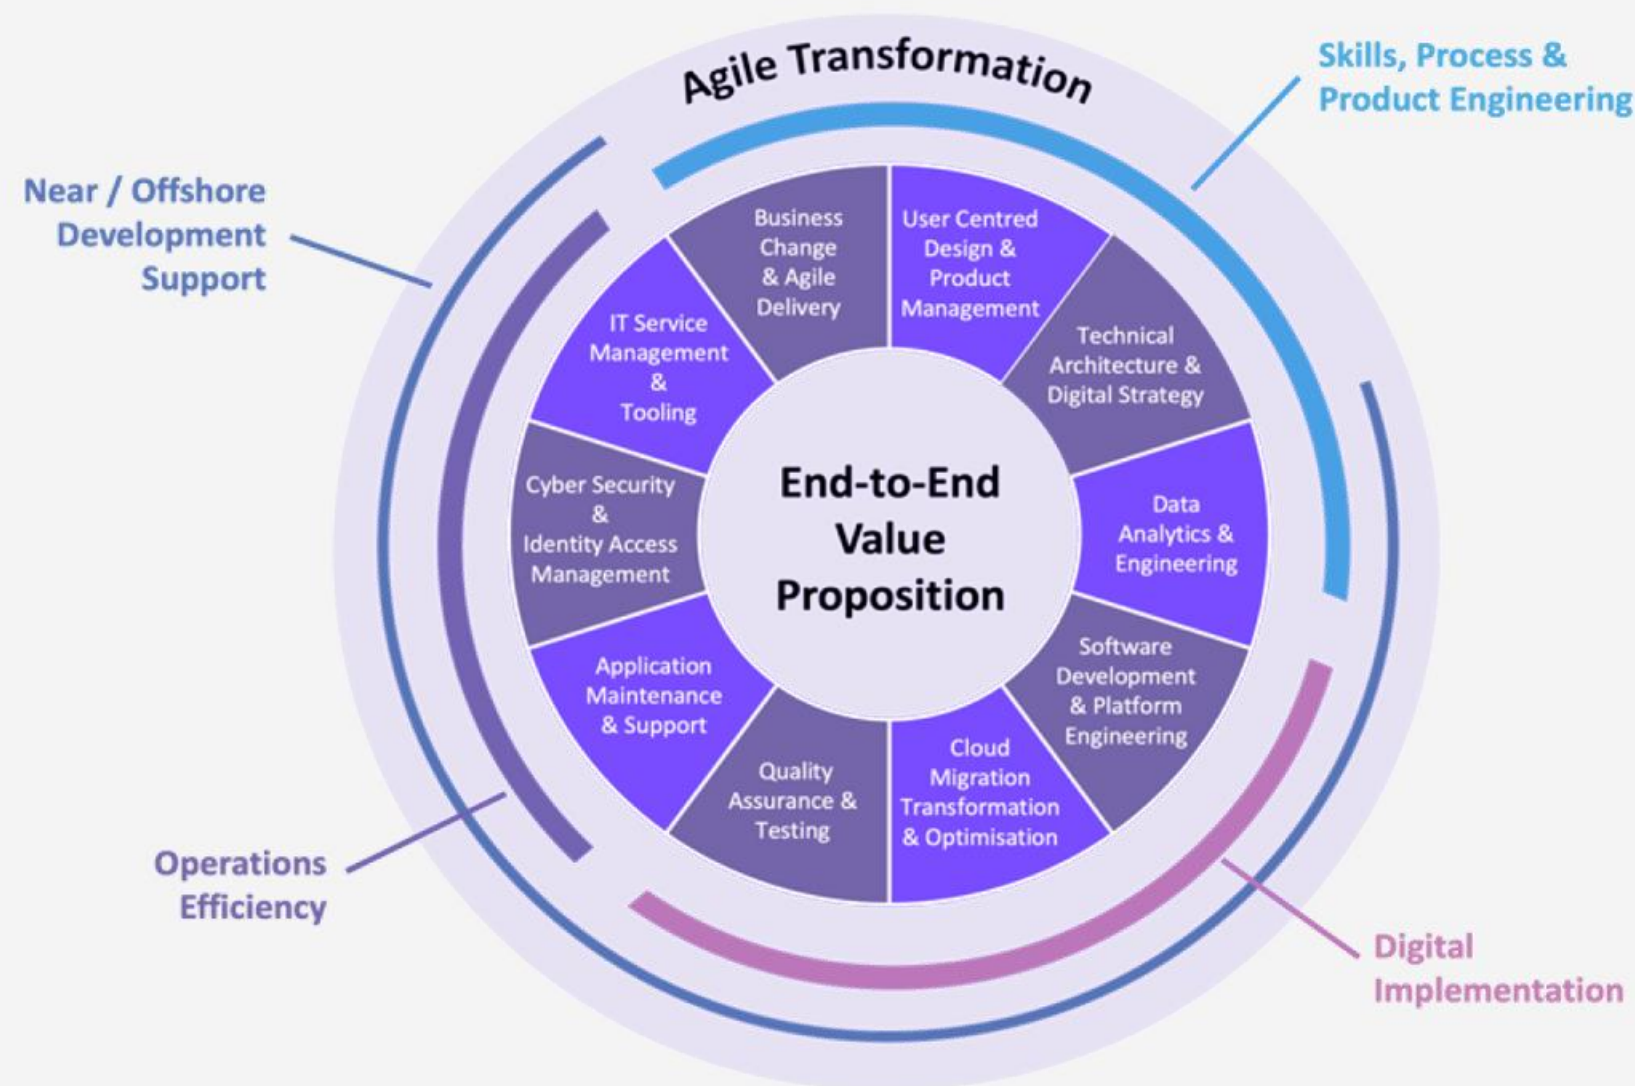

End-to-end transformation and innovation experts

Applying our skills in innovation and collaboration from across the Methods Group, to deliver end-to-end business and technical solutions that are people-centred, safe, and designed for the future.

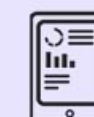

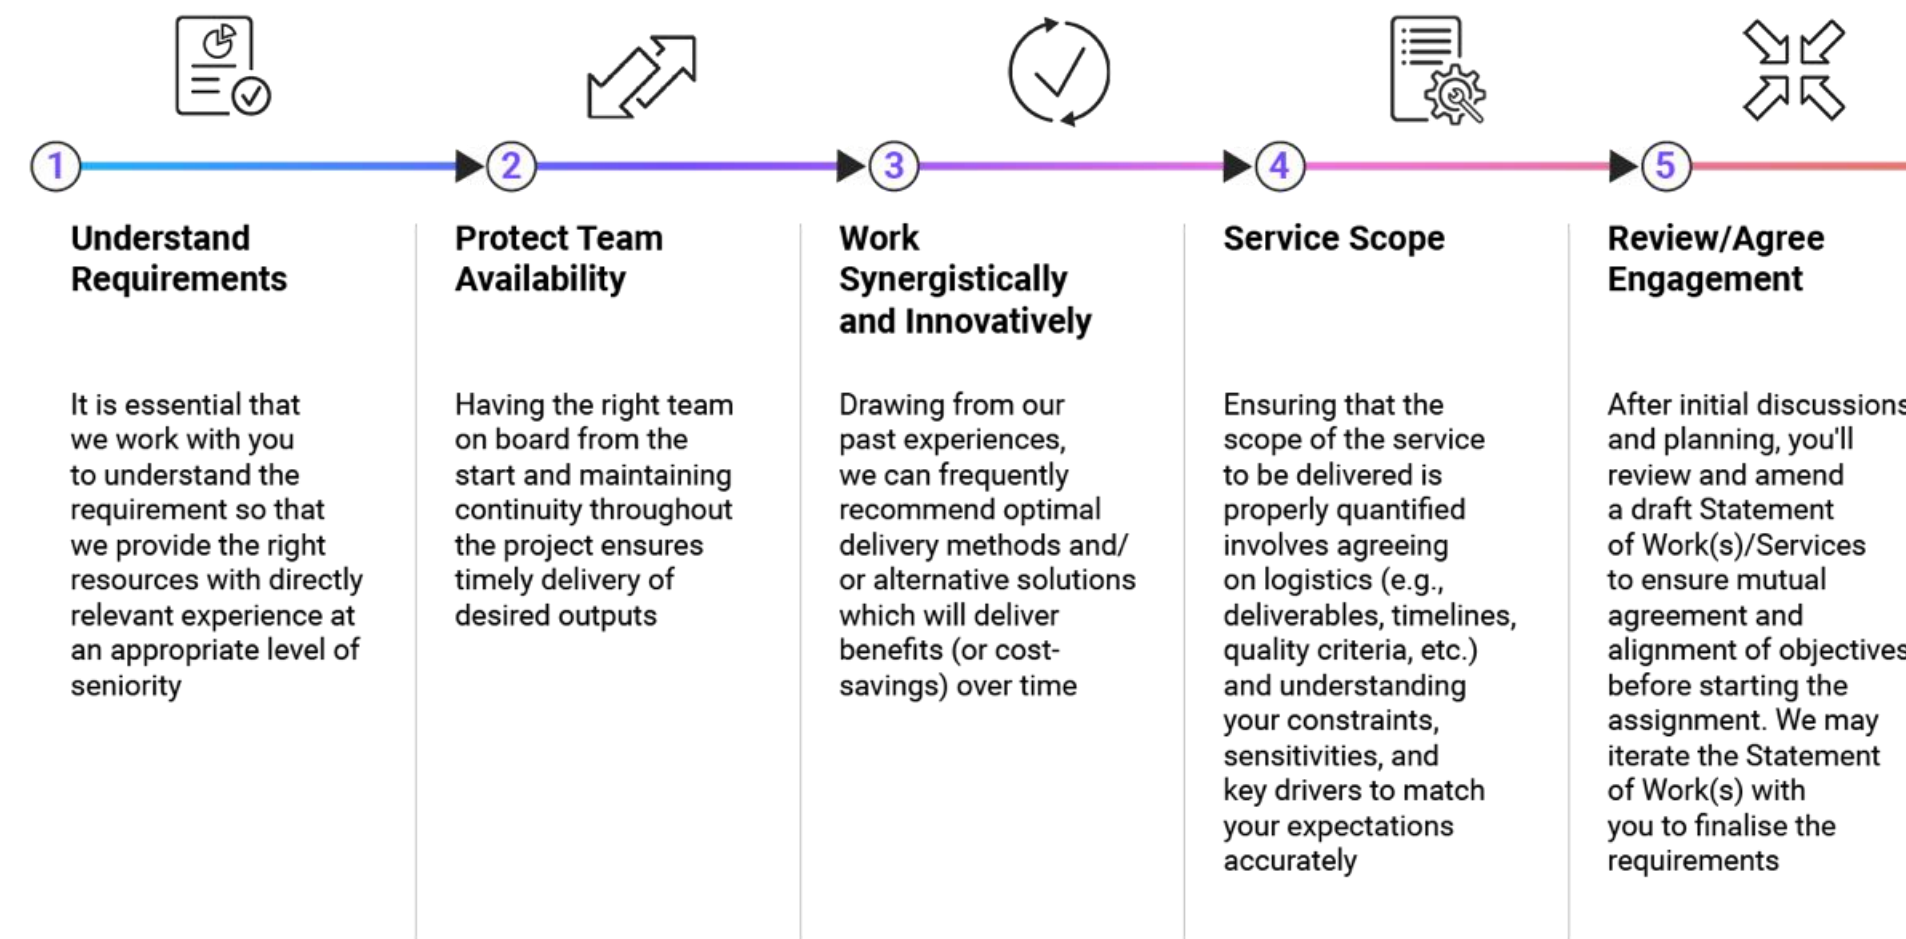

Methods provide collaborative and innovative solutions to help Central Government adapt to the changing landscape and deliver better outcomes for citizens.

With a focus on driving interoperability and innovation in UK Central Government, we have helped multiple organisations in the sector modernise their IT architecture, systems, strategy, and operating models to improve organisational resilience and service delivery.

Methods deliver wide-ranging services and thought leadership to support delivery including:

Onboarding and offboarding process

Ordering and Invoicing

Once we have agreed a Statement of Work(s) we will sign the appropriate agreement and complete a Call Off contract with an attached Statement of Work(s), and submission of a Purchase Order. We will then set up a mutually acceptable start date and commence work.

Payment terms are 30 days or less as may be agreed.

Please note - we are unable to accept Government Procurement Card (GPC) payments.

Customer Responsibilities

For any given requirement, we will identify any dependencies on the customer (e.g. access to key stakeholders, facilities, documentation, etc.) and agree these at the start of the work.

Making a difference

The work we do each day is focused on delivering a positive difference for the public sector for the benefit of society as a whole.

Customer stories

Stopped a Central Government high-severity Cyber threat in its tracks with a Threat Management solution that continuously monitors the security posture and responds to active cyber security incidents and vulnerabilities fast

Simplified 230+ service offerings with no disruption to live service to deliver service management maturity that was standardised to be more efficient, and optimised to reduce cost at a critical time for HMCTS

Put nature at the heart of government decision-making using digital and AI innovation to explore 21 natural capital ecosystem assessments with Defra

Reduced service costs by 60% through the design and transition of Robotic Process Automation of 1.2M service billing transactions per month at NOS Telecoms Cabinet Office

Enabled the delivery of 4.7M care and food supplies to people who were at the highest risk from COVID-19 through the development, delivery, and maintenance of the Shielding Vulnerable People service at the Cabinet Office

Increased speed and traceability of annual education funding allocations by transforming the Funding Service at ESFA in the DFE
