

UK Cyber Security Council - Chartered Cyber Security Professionals

Service description details

UK Cyber Security Council - Chartered Cyber Security Professionals

Methods is an NCSC Assured Cyber Consultancy, with Chartered Cyber Security Professionals, who can support organisations in any aspect of the delivery lifecycle.

Our Certified Consultants have deep industry knowledge, experience and expertise to provide organisations with pragmatic, accurate and cost-effective approaches based on industry best practices, methodology and principles.

What is the Service

Methods is an NCSC Assured Cyber Consultancy who has been assured to the highest standards as defined by National Cyber Security Centre (NCSC) and professional bodies such as UK Cyber Security Council. With a proven track record of delivering cyber security consultancy expertise, we pride ourselves on working closely with our clients - often augmenting in-house capability.

A Cyber Security Essentials Plus certified company, the services provided by the Cyber Portfolio align with ISO/IEC 20700 family of information security management standards, ensuring work is appropriately scoped, planned and delivered to the highest standards.

Methods provide a holistic approach to Cloud Platform Security with work undertaken by industry qualified Cyber security experts, many holding CCP Lead Practitioner else qualified to Chartered status, able to offer approved guidance and support to both public and private sector clients, covering the entirety of the Security organisation.

Methods manage engagements in accordance with industry best practice standards and frameworks and meet NCSC requirements for certified professional cyber services companies. Methods provide services for Critical National Infrastructure (CNI) customers across Government and the wider public and private sector. Engaging and working closely with our clients to ensure the services we provide have been correctly scoped, planned and delivered securely, with our customers interests and needs at the forefront of our thinking.

Our experienced team of certified consultants hold a range of industry recognised certifications including (but not limited to) ChCSP, NCSC CCP, CISSP, CCSP, CISM, CRISC, SSCP, CEHs, Qualys, CIPR, AWS, Azure, TOGAF, SABSA, COBIT, ITIL, Agile & Prince2 etc.

Methods is a member of the Chartered Institute of Information Security (CIISec), UK Security Council, Cloud Security Alliance (CSA), CCM (Cloud Control Matrix), Centre for Information Security (CIS) and NCSC Cyber Security Information Sharing Partnership (CISP).

Our industry qualified and proficient experts, provide the following confidence and benefits to our clients:

- Provide confidence and assurance to the client of the knowledge and skills of the consultant.
- Ensuring the credibility of the service being provided to the client.
- Guarantee the commitment to professional standards (Council's code of conduct, practice, and ethics) that Cyber Security consultant adhere to and maintain.
- Ensuring an ongoing commitment to continuous professional development to ensure expertise and competence evolves, is up to date and relevant.
- Confidence the consultant belongs to an elite network of respected and prestigious cyber security specialists.
- Providing the experience and expertise of the specialism of cyber security to the nationally recognised standard of competence.

Our methodology and approach are agile, which is designed to integrate seamlessly into the organisation, complementing and innovating the current working practices. Whether the organisation is looking for ad-hoc support, or a long-term partner, our team of professional, verified and approved by NCSC Cyber Security and UK Cyber Security Council, our experts, with the ability to help identify and implement best and most viable solutions. Aligned with NIST, NCSC, OWASP, and MOD Secure by Design & DEFSTAN 05-138 for dynamic security solutions.

One of our core tenets is collaboration, which defines how our expert team works collaboratively with the client. We adopt the principles of openness and knowledge transfer to empower the people and build impressive, sustainable governance around complex multi-cloud solutions. We work closely with the key stakeholders and programme teams to devise a bespoke solution that meets the demands of the business processes, strategic business objectives and regulatory requirements. Our consultants have a strong background in both public and private sectors and will quickly adapt to the environment, providing specialist expertise to design, innovative risk-based solutions that meet your specific business needs and outcomes.

We at Methods, provide pragmatic and proportionate risk-based guidance as trusted consultants covering compliance, architecture and design assurance; system accreditation across MOD DefCon standards. Our experienced consultants have proficiency working on a variety of Government projects with different divisions including critical national infrastructure (CNI), defence, policing, justice, education, healthcare, border control, central government, local authorities and government digital services.

In line with HMG requirements, Methods is certified to Cyber Essentials Plus, ISO/IEC 27001, ISO 27017 and ISO 9001 standards, we can provide customers with robust, consistent assurance in our quality processes and the protection of our systems and customer-related data. We adopt certified frameworks for HMG where data is classified OFFICIAL through to SECRET and above. Methods has a large pool of SC and DV cleared UK personnel and has experience of designing, building and maintaining governance and security to deliver service offerings at OFFICIAL, SECRET and ABOVE SECRET classifications.

Contact details

End-to-end transformation and innovation experts

Applying our skills in innovation and collaboration from across the Methods Group, to deliver end-to-end business and technical solutions that are people-centred, safe, and designed for the future.

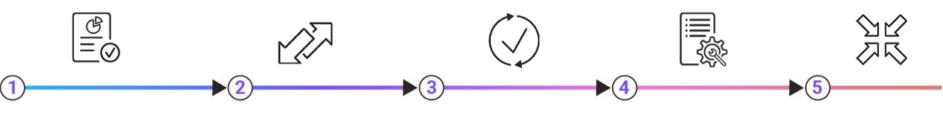

Methods provide collaborative and innovative solutions to help Central Government adapt to the changing landscape and deliver better outcomes for citizens.

With a focus on driving interoperability and innovation in UK Central Government, we have helped multiple organisations in the sector modernise their IT architecture, systems, strategy, and operating models to improve organisational resilience and service delivery.

Methods deliver wide-ranging services and thought leadership to support delivery including:

Onboarding and offboarding process

Understand Requirements

It is essential that we work with you to understand the requirement so that we provide the right resources with directly relevant experience at an appropriate level of seniority

Protect Team Availability

Having the right team on board from the start and maintaining continuity throughout the project ensures timely delivery of desired outputs

Work Synergistically and Innovatively

Drawing from our past experiences, we can frequently recommend optimal delivery methods and/ or alternative solutions which will deliver benefits (or costsavings) over time

Service Scope

Ensuring that the scope of the service to be delivered is properly quantified involves agreeing on logistics (e.g., deliverables, timelines, quality criteria, etc.) and understanding your constraints, sensitivities, and key drivers to match your expectations accurately

Review/Agree Engagement

After initial discussions and planning, you'll review and amend a draft Statement of Work(s)/Services to ensure mutual agreement and alignment of objectives before starting the assignment. We may iterate the Statement of Work(s) with you to finalise the requirements

Ordering and Invoicing

Once we have agreed a Statement of Work(s) we will sign the appropriate agreement and complete a Call Off contract with an attached Statement of Work(s), and submission of a Purchase Order. We will then set up a mutually acceptable start date and commence work.

Payment terms are 30 days or less as may be agreed.

Please note - we are unable to accept Government Procurement Card (GPC) payments.

Customer Responsibilities

For any given requirement, we will identify any dependencies on the customer (e.g. access to key stakeholders, facilities, documentation, etc.) and agree these at the start of the work.

Making a difference

The work we do each day is focused on delivering a positive difference for the public sector for the benefit of society as a whole.

Environment

We use the 'recycle, reuse, repair, refuse' approach to waste reduction to minimise landfill waste, support climate initiatives, and enhance biodiversity, creating a sustainable environment for our colleagues and community

Investment in Talent

We cultivate young talent through our GRAVITATE programme, championing vibrant apprenticeship and graduate schemes while aiding tech career exploration for individuals aged 14-24

Volunteering

We continue to support charitable causes that align with and support our values including our charity partner and VCSE initiatives

Diversifying our Supply Chains

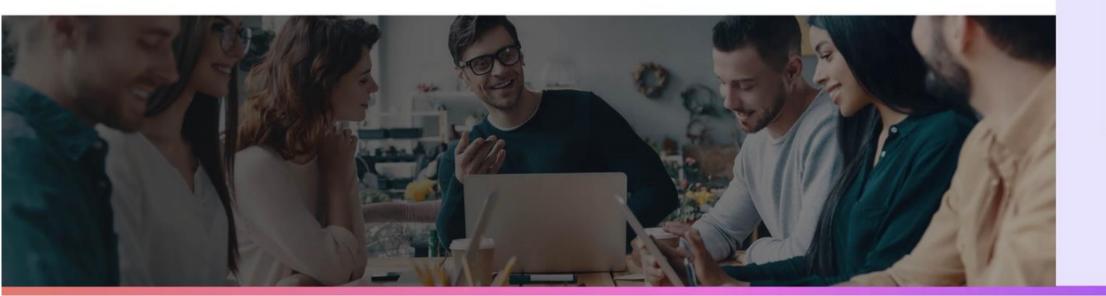

We diversify our local supply chains, promoting small business enterprise and engaging local people, SME, and micro-business suppliers

Staff Wellbeing

We offer career paths and continue to enhance our PDP processes, and maintain our commitment to the Armed Forces Covenant. Moreover, we continue to support our colleagues holistically, considering them as complete individuals at every career stage with Methods

Safeguarding Services

We continue to provide insightful thought leadership on leveraging modern technology to secure our public services for future generations. This involves speaking at industry events, educating youth on tech career paths, and offering pro-bono advice to senior policymakers
