## Pricing structure

This pricing schedule contains details of the SMART pricing structure. It is not exhaustive. Details of the specification, dependencies and constraints of the Services provided are given in the Service Description document.

SMART is based on a pence-per-head of population pricing model. This model takes into account costs to NECS of running the tool. Third party costs currently relate to both hosting and Clinical Safety Officer support. The SMART service fee is structured as follows. Modules can be purchased individually, or in multiples, from the following currently available modules:

Year 1 - per module	Total Price per capita per annum
Acute	£0.034
Mental Health	£0.044

Year 2 - per module	Total Price per capita per annum
Acute	£0.018
Mental Health	£0.027
