G-Cloud NEC Rego

Pricing Document

Please refer to the Service Definition for a definition of the core service and any additional optional module packages.

The NEC Rego Standard G-Cloud Service is available as:

- NEC Rego Software as a Service (SaaS).

Pricing Model

NEC Rego operates a **transparent, scalable, and equitable pricing model** to support Integrated Care Boards (ICBs), NHS Trusts, and Primary Care Networks (PCNs) in commissioning and budgeting for implementation.

To ensure flexibility and future-proofing, NEC Rego has adopted a **per-patient pricing model**. This approach allows for seamless adaptation in the event of organisational changes, such as mergers or revised contracting structures.

Population-Based Pricing

Pricing is based on publicly available patient population data, ensuring consistency and verifiability. This data can be accessed via the NHS England Digital platform:

[Patients Registered at a GP Practice - NHS England Digital](#)

This model ensures all NHS organisations, regardless of size or structure, can access and scale the Rego platform in a cost-effective and sustainable manner.

Implementation and Training Price

Implementation, onboarding, and training costs are variable and will be scoped based on the following factors:

- Number of **referrer organisations**, for example Dental, Optometry, and Primary Care.
- Number of **provider organisations**, for example Secondary Care, Community, IMOS, and Private care.
- Number of **endpoints** within provider organisations.
- Number of **specialities and referral pathways**, including any localisation.
- Preferred **training format**, for example Train-the-Trainer or Super User formats.

A tailored quote will be provided based on the above criteria.

Speciality-Based Pricing

NEC Rego provides established solutions across multiple specialities, including Dental, Optometry, and General Practice. A **base price** applies for standard, out-of-the-box configurations with minor localisation.

Any additional customisation or new referral pathways will be scoped and delivered on a **Time and Materials** basis.

The minimum contract value for any Rego Contract will be £50,000 excluding VAT.

Speciality	Price per Patient	Details of Pathways available	Min Patients
Dental	£0.09-0.12	Pre-configured Dental Pathways with minimal local configuration	556,000
Ophthalmology	£0.05-0.07	Pre-configured Ophthalmology Pathways with minimal local configuration	1,000,000
Dental & Ophthalmology	£0.13	Pre-configured Dental and Optometry pathways with minimal configuration	385,000
General Practice	£0.22-0.24	Base Platform with up to five Specialities (Price dependent on number of Pathways)	227,500
	£0.24-0.26	Base Platform with up to eight specialities (Price dependent on number of Pathways)	210,000
	£0.26-0.30	Base Platform with up to 10 specialities (Price dependent on number of Pathways)	195,000
	£0.30-0.40	Platform with up to 20 Specialities (Price dependent on number of configured pathways)	170,000
Enterprise Licence	£0.60	Licence fee for platform running unlimited Pathways but onboarding fee still applies	100,000
