1 Pricing Proactis - Sourcing

This document outlines the pricing options for the Proactis Sourcing solution.

The pricing outlined caters for a defined number of named users, where relevant, as well as core and optional functionality.

In all instances the subscription licence pricing is per annum, exclusive of any applicable taxes and includes the software, support and any software upgrades provided during the course of the minimum 3 year term.

1.1 Included in all modules

Anybody accessing the system is a named User. No other User types exist.

Licence prices include all

- Hosting
- Support
- Releases
- Free-to-access User webinars

1.2 Storage Limits

The following storage limits apply:

15GB

Additional Storage charged at £50 per GB

6 Application Managed Service costs

The Application Managed Service (AMS) is a Consultancy Support service which you can easily outsource tasks to. It enables you to advance the maturity of your Finance and Procurement functions and improve their performance.

It can do this by:

- Increasing your team's capacity
- Strengthening your team's knowledge and capabilities
- Enabling your team to focus on core finance and procurement activities
- Accelerating User adoption and proving your transformations ROI

These are example use cases

- Setting up new users, permissions and roles
- Process reviews and improvements
- Changes to workflow tasks and reports
- Creating new reports and dashboards, and having changes made to existing ones
- Data cleansing

Proactis Sourcing
