

PROVISIO 365 SUPPORT SERVICE

Seamlessly manage and customise your Microsoft 365 environment with a single click. Whether you want to prevent students from emailing externally, disable certain licenses for staff and students or simply build a shared drive solution, this service will streamline the process.

HYBRID INFRASTRUCTURE

HOW DOES THE SERVICE WORK?

Provisio 365 is a cloud-based service that revolutionises how you manage your M365 environment, including Exchange Online, SharePoint Online, School Data Sync and Office 365. It automatically connects to your server and delivers these changes by setting up users and classrooms within Microsoft Teams. We currently have 2 offerings: Provisio 365 SDS and Provisio 365 Timetable. Provisio 365 allows you to:

- Connect and provision your classes in Microsoft Teams Education.
- Add all teachers and students to classes.
- Assign permissions so that all classes are activated in Teams.
- Daily service updates, so classes can be updated frequently.
- Integration with Microsoft School Data Sync.
- Pull from the school's timetable system using Group Call XOD.

Provisio 365 also helps you configure Office 365 Groups based on timetables and OneNote class notebooks to streamline administrative duties which allow staff to focus on their students' educational needs. It also assists you in applying configuration settings to maximise the benefits of the new features continually added to Microsoft's software.

BENEFITS TO YOU

People

Provisio 365 allows your administrative and teaching staff to avoid daily provisioning hassles, save time, and ensure that your environment is maintained without errors throughout the implementation and maintenance processes.

Platforms

Softcat provides Provisio 365 Cloud Service in Microsoft Azure. Our 24x7 Network Operation Centre ensures urgent amendments can be made before the school day. We also facilitate class creation for the following academic year.

Commercial

With Provisio 365, you can save time and money, as well as run your business more efficiently in the cloud.

SUITABLE FOR YOU IF...

- ✓ You are looking for a trusted Microsoft 365 partner that can help automate some or all of your Microsoft 365 environment.
- ✓ You want a service that can configure changes efficiently and effectively.
- ✓ You need to replicate your development environment.
- ✓ You are looking for backend processes to further secure your environment.
- ✓ You require a service with technical support around the clock.
