Microsoft 365 Copilot Readiness Assessment

boxxe are a leading provider of hardware, software and IT services to the public and corporate sectors. We create flexible IT solutions to help people, systems and technology function efficiently and productively.

Microsoft 365 Copilot is an AI-powered productivity tool that can revolutionise your workplace, improve productivity across the suite, and allow your team to focus on generating value for your organisation. However, if you do not understand the prerequisites or are not adequately prepared you will not get the most out of your investment. boxxe Microsoft 365 Copilot Readiness Assessment helps you prepare for deployment so that you're ready to leverage its full potential.

Audience – CIO's, IT Directors, EUC team members, COOs and IT Managers

Objectives :

- Gain a better understanding of Copilot and how it could benefit your organisation

- Understand what areas you might need to address to get started with copilot

- Understand your next steps

What we offer

Our assessment starts with a questionnaire and a review of your environment.

The key to getting the most out Microsoft Copilot is ensuring you are prepared for it.

In the assessment we will:

- Give you an overview of Microsoft copilot

- Identify stakeholders

- Discover challenges, goals and opportunities for copilot

- Discover your data locations and Data types

- Review the assessment and deliver the guidance report and discuss next steps
