

Pricing list for Managed Threat Detection & Response (MTDR)

MTDR is our managed security service that provides security monitoring, threat intelligence, incident analysis, incident response and threat hunting.

Based on IBM QRadar and CP4S, MTDR will collect data from pre-agreed sources, be that your own infrastructure, public cloud providers or Private Cloud instances via remote log collection agents.

Rate Type	Days	Rate (Sell Price)	Notes
Set Up and Warranty	NA	POA	<p>There is a one off set up charge that includes full onboarding, deployment and tuning of any technologies.</p> <p>Our MTDR service is priced for each individual client and is dependent upon the number of networks, data sources and endpoints within scope.</p>
Ongoing security monitoring and response charges	NA	POA	<p>Ongoing Charges are dependent on several factors such as number of networks, data sources and endpoints within scope; level of service required and hours of cover.</p>
