making technology *human*

boxxe makes the global workplace habitable from a technological and human perspective. One does not overrule the other. They function efficiently and effectively together.

We believe in reciprocal adaptation: adapting technology to people and people to technology.

We aim to make organisations the best they can be through technology and by giving every person, wherever they are in the world, the confidence to use that technology to drive efficiency and effectiveness in every aspect of their working lives.

How can we help to make you the best you can be?

# Getting Started with
Automation

In today's world with ever-evolving digital needs, organisations' pragmatic approach to change is fundamental as a key strategy to sustained competitive advantage.

Automation delivers operational and outcome-based solutions, of which benefits can be almost instantaneous -as the depth of automation implemented develops, so does its value across your organisation.
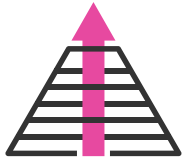

Automation maximises existing potential within your organisation, helping with improved resource allocation:

- Immediate and sustainable cost-savings

- Additional time for strategic, value-adding tasks

- Enhanced workforce productivity and accuracy

Maximise your potential with ***boxxe's automation services***

Automation as a Service, **NOT JUST A PRODUCT**

EMPOWERING YOU by delivering clearly defined outcomes

END TO END MANAGEMENT of your Automation Processes

FLEXIBLE and Scalable Solutions

Our approach to Automation

We understand that the needs of every organisation are different, and our automation solutions will vary, depending on your individual requirements.

boxxe works with you to understand the challenges you face, and how Automation can provide solutions.

Our highly skilled automation consultants help to deliver the solution that is right for you. Once implemented, our service delivery and support team provide continuous operational support and improvement recommendations.

- *Workshop*
- *Ideation Session*
- *Implementation Services*
- *Developer Services*
- *Project Management*
- *Support Services*
- *Training*
- *Consulting*

Automation Workshop

To kick off your journey the right way, our interactive Automation Workshop develops your understanding of Automation's best uses, designed to inform on best practices to accomplish your business goals.

Automation Ideation Session

Getting started with Automation can be difficult.

boxxe's Ideation Session detects your current challenges, and identifies the right business processes to automate, enabling the development of an Automation pipeline.

Automation Implementation Services

Our accredited automation specialists assist to design and implement your chosen automation solution within your organisation.
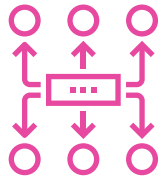

From supporting discovery activities and solutions architecture to full deployment of live services, boxxe provides a flexible and collaborative approach to your planning and strategic developments.

boxxe

Automation Developer Services

Upon full deployment, our Automation specialist provides continuous support throughout your automation journey, working for you to automate your processes.
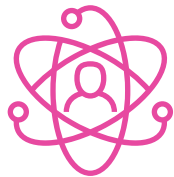

boxxe's development framework helps to

design, develop, document, and deploy automation workflows across your platform, and deliver training to ensure your staff enjoy the benefits.

Automation Project Management

We understand organisations have different requirements when going through the implementation and development stages of the automation journey.
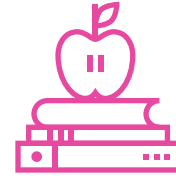

Our Automation Project Management service enables you to leverage our established automation governance model and de-risk your automation projects.

Automation Support Services

It can be challenging for a small team to excel across all aspects of automation technology.

That is where our Automation Support Services can support you. From troubleshooting errors in processes to fixing infrastructure-related problems, boxxe provides technical support for all automation related issues, enabling your team to focus on key areas.

Automation Training

boxxe delivers training packages to aid automation enablement within your workforce.

Comprised of Discovery sessions, Bot-Builder Training and Train the Trainer, empowering you to start building your internal team of automation experts.

Automation Consulting

Our experts with proven knowledge of automation frameworks and next-gen technologies help supercharge your automation journey.

We'll start with a call to understand your current challenges, potential solutions, and whether automation is right for you.

If it is, our accredited specialists will prepare your custom automation roll-out strategy that focuses on maximum ROI as quickly as possible.

Automation helps to ease pressures

" Automation helps to ease pressures. Not only has this project helped free up valuable time, now we can also explore other ways of using technology in healthcare. We want to thank the whole team involved in bringing together the knowledge and ideas to support this project. "
