Registered Office: One Eagle Place, St James', London, SW1Y 6AF

SERVICE NAME:	EU Network and Information Systems (NIS) Directive Review and Compliance
SERVICE DESCRIPTION:	The EU Network and Information Systems Directive (NIS) requires Operators of Essential Services (OES) to meet 14 principles to provide assurance over security of critical services. The Leonardo NIS Review and Compliance service delivers an assessment of an organisation against the principles and a prioritised security improvement roadmap as required.
KEY SERVICE FEATURES:	- Risk and security outcomes based approach - Review of OES services against NIS principles - Leonardo NIS framework gives detailed assessment of each principle - Based on current NCSC guidance - Fully evidenced and delivers analysis of root cause of non-compliances - Prioritised recommendations for security improvements against the NIS principles - Each recommendation contains detail required to implement - Delivery of artefacts and technologies to implement recommendations as required
KEY SERVICE BENEFITS:	- Compliance with NIS Directive obligations - Provide evidence to support adherence to the NCSC NIS principles - Roadmap for security improvement driven by risk and intended outcomes - Allows risk-based decisions to be made - Allows prioritised and evidenced investment decisions - Improve cyber security and resilience of service offerings
