1 Deloitte Overview

As a leader in professional services, Deloitte LLP is committed to making an impact to our clients, our people and for society. We have over 25,000 staff based across the UK providing audit, risk advisory, tax, consulting, financial advisory and legal services to public and private clients across multiple industries. We work together to build trust, support inclusive growth, and build capability, enabled by our **breadth and depth of expertise across advisory, delivery, engineering and managed services.**

Our **public sector practice** serves Central Government, Government Agencies, Local & Regional Government, Defence, Security and Justice, Health and Social Care, Transport, Education and Housing. We also provide services to the Northern Ireland Office, Scottish Government, Welsh Government and Crown Dependencies.

Our Cloud Capability

At Deloitte, we help our clients **Imagine, Deliver and Run** the businesses of the future through the power of **Cloud**. We have deep Cloud architecture, engineering, operational, commercial, and business transformation expertise delivered by a team of more than 26,000 Cloud Practitioners globally. We have delivered over 2,000 cloud implementations over the past 5 years and have 60+ cloud centres of excellence supporting the delivery of cloud services to our clients.

In the UK, we have a growing team of OCI specialists, over 100 Cloud managed service specialists plus the following certifications across AWS, Microsoft Azure and Google Cloud:

We help our clients with all aspects of their journey-to-cloud and optimisation of their cloud and cloud-services investments. Our Cloud practice can support you to optimise your client investments, and to navigate your organisations cloud journey, providing specialist cloud architecture, engineering, and operational skills at all stages, with a large proportion of our team holding the clearances required to meet your specific security requirements.

Our alliances & ecosystems

To bring full value to our clients, Deloitte is a premier consulting partner with all the leading hyper-scale cloud vendors in the market including AWS, Google, Microsoft¹, Google and SAP. A selection of our partners and alliances are presented below:

¹ As Microsoft's Independent Auditor, Deloitte cannot have a direct or material indirect business relationship with Microsoft, such as having an alliance or being a registered partner. Nonetheless, Deloitte can provide Microsoft-related technology services and invests heavily across its global business building technical skills and capabilities to develop world-class consulting and solution delivery capabilities.

What the analysts say

Don't just take our word for it. Deloitte is recognised by the analyst community as being **leaders in cloud transformation services**. This reflects the wealth of experience we have in delivering cloud services across the public sector and wider private sector combined with our out-of-the-box templates, tools and assets.

Gartner

Originating in 2021, Deloitte has been recognised as a Leader in this category for three years in a row. Deloitte was also positioned as a Leader in the **Gartner Magic Quadrant for Public Cloud Infrastructure Professional and Managed Services, Worldwide** in 2021, 2020 and 2019.

IDC

Deloitte has been awarded Leader status in the **IDC MarketScape: Worldwide Hybrid IT Consulting and Integration Services 2023** Vendor Assessment. In 2023, we were also recognised as Leaders in **Hybrid IT Consulting & Integration Services** and **Software Engineering Services**.

IDC MarketScape: Worldwide Hybrid IT Consulting and Integration Services 2023 Vendor Assessment © IDC inc. 2023

Deloitte scored highest in 4 of 5 Use Cases in **Gartner® Critical Capabilities for Public Cloud IT Transformation Services 2023** report:

“Deloitte approaches all aspects of cloud adoption, including migration, with transformation as an objective.”

Cloud Transformation

Transform Faster, Transform Smarter

Deloitte's Cloud Transformation can fast-forward your journey to the Cloud, unlocking innovation, efficiency, and growth.

2 Service Overview

Overview of Service Offerings

Deloitte provides a comprehensive suite of services, delivered by a highly experience team of local cloud solution implementation/migration specialists, covering the full suite of SAP cloud solutions. Deloitte's team supports the customer in migrating to SAP's cloud solutions, either from an on-premise solution(s) or alternative cloud solution(s). Deloitte's team provides:

- Strategy and Architecture
- Project Management
- Business Process and Solution Design
- Solution Configuration
- Data Migration
- Technical Integration
- Testing
- SAP Business Technology Platform (BTP) Solution Extensions
- Change Management
- Employee Experience
- Training (train-the-trainer)
- Support and Maintenance

Deloitte utilises robust industry standard methodologies for all services, enhanced through Deloitte's own templates and accelerators that enables the team to deliver high quality outcomes, at pace, for Deloitte's customers. Depending upon the specific scope and customer requirements, Deloitte can apply an Agile, Hybrid or if necessary, Waterfall method to the migration.

Whilst Deloitte offers a turnkey service for the migration, Deloitte usually seeks to establish an engaged joint project team, thereby maximising the quality and adoption of the final solution for the business.

Deloitte is a certified SAP UK partner and Value-Added Reseller. In addition to the implementation of new SAP solutions, Deloitte also provides services to transition existing SAP on-premise products to either hosted cloud infrastructure or to SAP Cloud solutions where available.

Once implemented or migrated, Deloitte provides support services for both infrastructure and applications. Deloitte offers a 'bring your own licence' model for customers who have current perpetual licences and only require re-platforming.

As an accredited Amazon Web Services solution provider, Deloitte offers services to host development, test and production SAP systems in the AWS cloud. These include core SAP instances as well as mobile services including the SAP mobile platform.

An overview of the Deloitte service offerings to support the planning, design, integration and implementation of G-Cloud PaaS and SaaS is provided in the paragraphs following. Further information on our service offerings and partnerships may be found at our website www.deloitte.co.uk.

Benefits and Features of Deloitte Services

Deloitte's cloud services are designed to help customer gain maximum benefits from the SAP SaaS solutions. The key features of Deloitte's services are as follows:

- **Full lifecycle services delivered on a "one-stop-shop" basis** – Deloitte can help customers evaluate solution fit and suitability as part of defining the organisation's strategy and architecture as part of a cloud migration. Deloitte can help develop the business case to gain approval and then setup the project for success. Deloitte

provides the project implementation services from design, build and test through to go-live and ongoing support and maintenance

- **Best practices-based implementation approach** – successful adoption of cloud solutions is predicted by adherence to the best practices inherent in the solution design. Deloitte is well-versed with these and uses these as the basis for the implementation
- **Collaborative customer engagement model** – Deloitte’s philosophy is to be an enabler to helping the customer transformation through technology adoption. Deloitte seeks to work in a joined-up manner, helping the customer build internal competence leading to high levels of adoption and satisfaction
- **Focus on delivering business improvement and innovation** – Deloitte’s team has market-leading experience and is focussed on delivering new and innovative solutions, as evidenced by the number of awards Deloitte has won over the last 5 years
- **Benefits and outcomes-based approach** – Deloitte seeks to ensure the business case is well defined and the drivers for benefits are understood. In this way, the solution design remains focussed on achieving the anticipated outcomes, removing blockers that may arise. Deloitte has a Benefits Realisation methodology to support these engagements from identification through to enablement and finally, achievement
- **Agile user experience design approach** – Deloitte has extensive experience in utilising Agile methodologies for designing and building solutions and has a strong focus on delivering a delightful user experience. Deloitte’s visual design team works with the solution teams to focus on usability
- **End-to-end solution integration** – SAP’s cloud solutions seldom operate in isolation, thus necessitating end-to-end process and solution design. Deloitte’s team are masters at designing and implementing sleek integration solutions that orchestrate processes across the technology stack
- **Mobile integration** – Deloitte recognises that as part of ensuring user satisfaction and delight in the experience, these services need to be mobile enabled and optimised for ease of use. Deloitte’s visual design and User Experience team helps design solutions with Deloitte’s technical teams ensuring they are delivered robustly
- **Local implementation and support team** – Deloitte is differentiated as a UK-based, owner managed, cloud services provider with one of the largest SAP teams in the market focussed on delivering its services with a high degree of client engagement and collaboration thus meeting quality and enablement commitments

3 Detailed Service Description

SaaS Solutions Serviced

Deloitte provides, through G-Cloud, specialist cloud services to support the planning, design, implementation, integration and support of the following SaaS-delivered applications:
