G-Cloud 14 - Lot 3: Cloud Support

Shaping Cloud

Professional Services - Pricing

Working as your trusted cloud partner, our professional services are provided by our pool of experienced experts in cloud, hybrid cloud, infrastructure, data, integration, development, devops, security, procurement, and PMO resources. All of these can be provided fixed price against set requirements, as a pool of days/ retainer or as time and materials.

Our Professional Services can supplement your existing team or to perform digital transformation services or cloud migration services on your behalf, working with you and your team.

These services can be acquired in the following ways:

- As a fixed price service for us to deliver an agreed set of outcomes or meet a set of requirements;
- On a flexible draw down arrangement, against a pool of days that you have bought;
- On a flexible draw down arrangement against a monthly retainer; or
- As time and materials (capped / uncapped), using the rate card attached to this service and billed each month.

We would be pleased to discuss your requirements, explain the different approaches described above and prepare a specific costed proposal for your consideration.

To arrange an initial exploratory conversation, please contact
