Cloud Implementation and Support Services:

Delve into our tailored cloud support services designed exclusively for NHS Trusts and Integrated Care Systems (ICSs) embarking on EPR system implementations. From meticulous configuration to precise planning, migration, and comprehensive training, we ensure a seamless transition from conception to go-live.

Cloud Data Migration Services:

Dive into the intricate realm of data migration with our comprehensive suite of services. Seamlessly integrate, manage, and migrate healthcare data, ensuring compliance, integrity, and accessibility. From integration testing to meticulous data analysis and planning, trust us to navigate your journey to a data-rich future.

Cloud Go-live Activation Services:

Embark on your go-live journey with confidence as our healthcare implementation activation services provide unparalleled support. From at-the-elbow assistance to meticulous floor walking, incident management, and readiness consultancy, we ensure a smooth transition into live operations.

Cloud Business Case and Options Appraisals Services:

Embark on informed decision-making with our Business Case and Options Appraisals Services tailored for the healthcare IT landscape. Utilising the HMRC Treasury Green Book and the Five Case Model, we meticulously craft strategic, economic, commercial, financial, and management cases to guide your investment journey. Our comprehensive services encompass options appraisal, ROI analysis, stakeholder engagement, and board approval, ensuring alignment with NHS Improvement Checklist and rigorous benefit realisation.

Cloud Business Intelligence and Analytics Services:

Unveil the power of data with our strategic development of EPR and healthcare information systems. From robust BI and analytics strategy formulation to detailed data quality reviews, information governance services, and comprehensive analysis and design services, unlock the full potential of your healthcare data.

Cloud Digital Strategy & Data Strategy Services:

Chart a transformative course for your organisation with our strategic digital and data strategy services. Dive deep into strategic planning, evaluation of current capabilities, SWOT analysis, vision formulation, and development of an integrated roadmap to drive innovation and transformation.

Cloud IT & Technical Consultancy Services:

Navigate the intricate realm of healthcare IT infrastructure with our technical consultancy services. From comprehensive technical reviews and infrastructure planning to seamless integration, IT service desk reviews, and coaching and mentoring of client's technical staff, trust us to architect a robust IT ecosystem.

Cloud Procurement & Supplier Selection:

Streamline your procurement processes with our comprehensive services. From complex investments using OJEU Competitive Dialogue to lower complexity contracts using the Restricted procedure, our MCIPS accredited specialists ensure compliance, efficiency, and cost-effectiveness at every step.

Cloud Requirements & Business Analysis Services:

Dive deep into the intricate realm of healthcare requirements and business analysis. From detailed output-based specification to functional and non-functional requirements analysis for a myriad of healthcare applications, including EPR, PAS, PACS, VNA, and LIMS, trust us to meticulously define your IT needs.

Cloud Programme and Project Management Office (PMO) Services:

Embark on your transformation journey with our comprehensive programme and project management support. From initial discovery and planning to design, development, and implementation management of EPR and digital health solutions, trust us to navigate your journey with precision and care

Cloud Optimisation and Improvement Services:

Dive into a realm of continuous improvement and optimisation with our comprehensive suite of services. From identifying gaps and root causes of issues to streamlining processes, workflows, and system architecture, trust us to elevate your EPR and digital health systems to new heights of efficiency and effectiveness.
