Arbor

Arbor's 2025 G-Cloud Offer

Many schools have Management Information System and Finance Management System contracts that do not expire in line with the best times of year for them to move systems. This leaves them with the choice of moving at a more disruptive time, or paying for two systems until their contract end date. Arbor is therefore offering schools in this contractual situation the option to use Arbor for free until their incumbent contract end date. This offer is designed for schools with contract expiries later in the academic year, that want to get a head start and move to Arbor MIS/Finance earlier.

This offer is valid on G-Cloud 14 until the **31st March 2026**.

Conditions

- This offer applies to schools locked into an existing contract as described above, with any MIS/Finance provider, **for the duration of that existing contract or 31st March 2027 (whichever occurs sooner)**, so they can start on their new system without having to wait.

- Schools must be switching to Arbor MIS and/or Arbor Finance as their core system to benefit from this offer, which can be checked after migration by whether they are using Arbor to submit their School and Workforce Census (we commit to having every school's data census-ready from day 1!). If not, the school will need to extend their programme or project management services with Arbor to get them back on track.

- The free period only applies to Arbor licences, training and services are not included.

Our MIS packages

MIS Core

All the core features of our MIS

Features include:

- ✓ Attendance
- ✓ Behaviour
- ✓ Progress Tracking
- ✓ Census
- ✓ Custom Report Writer
- ✓ Student and Staff Profiles
- ✓ Emails and SMS

To help you plan your Local Authority budget, we will provide a guarantee against schools leaving your contract due to academisation. When you buy Arbor for LA maintained schools under a single G-Cloud 14 contract, the discount threshold will be based on your Year 1 committed number of schools. If schools academise and move away from this license onto alternative Arbor MIS licenses held by their Multi Academy Trust, **Arbor will maintain the same discount threshold for your LA maintained schools** so you'll never pay more for less.

To help you plan your Local Authority budget, we will provide a guarantee against schools leaving your contract due to academisation. When you buy Arbor for LA maintained schools under a single G-Cloud 14 contract, the discount threshold will be based on your Year 1 committed number of schools. If schools academise and move away from this license, **Arbor will maintain the same discount threshold for your LA maintained schools** so you'll never pay more for less. Arbor Finance is only suitable for LA maintained schools.

Group MIS packages

Designed for Local Authority School Improvement and Data teams to analyse your schools' data and take action on it.

Essentials

Use the Group MIS to read data from all of your school sites and access them remotely, with both built-in dashboards and the custom report writer for further analysis.

Features include:

✓ Login to MIS
✓ Context, Attendance, and behaviour dashboards
✓ Custom Report Writer
✓ Live feeds
✓ Create school clusters
✓ Group staff records
✓ Single Central Record
✓ User management and permissions
✓ Staff Search List
✓ User List Audit
✓ Group level API

Plus

Use the Group MIS to both read and write back to your school sites, with comms and push-down options, and read data directly from the Data Warehouse with the BI Connector.

All Essentials features +

✓ Centralised emailing
✓ Bulk actions
✓ Attendance Thresholds
✓ Assessment Policy Pushdown
✓ Assessment Analysis
✓ Pay Scale Pushdown
✓ User Defined Fields Pushdown
✓ Census Audit
✓ New School Year Setup Audit
✓ BI Connector
✓ BI Viewer

Enterprise

Read and write to both the MIS and directly to the data warehouse. Our Custom Data Warehouse allows you to manipulate the underlying dataset of your MIS, by bringing in other data sources, building programs, or running SQL lookups

All Essentials/Plus +

Arbor

Further options

Shared Teaching

Designed for circumstances like a shared 6th form or splitting resources across multiple schools, Shared Teaching allows you to live sync student and class data like attendance for that day across more than one MIS. To use this module to its fullest, we recommend you upgrade to advanced support with either Arbor or your chosen third party support provider.

	Addition to Annual Licence
Shared Teaching Module per school	£1,575.00
Advanced Support per school	£2,635.00

Google Classroom or Microsoft Teams live sync

Dependent on third-party support at time of publication. Contact Arbor Account Management for a list of available partners and pricing (up to £750 per school per year)

BI Connector for individual schools

	Addition to Annual Licence
Per school MIS	£1,000
Per small school (>150 students)	£750

TimeTabler Options and support

TimeTabler support and the cloud-based Options product are sold as an add-on to your Arbor MIS licence.
(note: TimeTabler licences are sold separately as this is not a cloud product.)

Options	£750 (annual licence)
TimeTabler Options Gold Start	£500 (one-off)

All further options are subject to annual license volume discounts shown on Page 2

Arbor MIS Migration and Training costs 2024/25

Transforming the way schools work

6,500+
Schools have chosen Arbor MIS!

Free Resources & Support

To help schools hit the ground running with our simple, smart MIS, we can provide full customer support and technical support.

Plus, we've designed our training resources to help you improve your knowledge of the software on your own schedule. These resources are available to all users, even if you have a third-party or in-house support team.

Your onboarding support includes:

- Status calls and coordination during implementation with an experienced onboarding team
- Phone, email, and webchat help desk active 8–5 Monday–Friday
- An ongoing Account Manager who will make sure you're happy with your MIS, and book any training for you

Your onboarding training includes:

- A series of pre-recorded training 'webinars', as well as live Q&A webinars throughout the year at key times such as exams season or census
- A searchable online Help Centre with regularly updated training videos and written guides
- An interactive e-learning journey that takes you through the key features you need to get started
- Help text and in-app instructions embedded into different MIS pages, so new users can get familiar with your site on the go!

Data migration from your legacy MIS is also free for most Primary schools!

> " The customer service from Arbor really is a breath of fresh air – we are not used to MIS people going out of their way to help and support us! "

**Jason Anderson
Romsey Primary School**

Services for groups of schools

Over the past year, Arbor brought more schools onto the cloud than any other MIS supplier, so we have a tried and tested approach for onboarding schools in large groups based on our experience with over 6,500 schools. We know changing MIS is viewed with trepidation by some schools, and we allow for this in our programmes by providing training and planning sessions well before migrations begin. Our phased mobilisation plans are based on Prince2 methodology, with ITIL-certified support to back it up.

As a Local Authority, your broader programme of implementation phases will be planned in collaboration with you by a trained, dedicated **Programme Manager.** Most of your implementation and training costs will depend on your size and needs on a per-school basis - please see overleaf for school pricing. We are also able to accredit your central team to deliver support or training, as well as create bespoke shared training days or packages to meet your schools' needs. Information is listed in the additional matrix below.

Phase 1: Technical Migration	Phase 2: Getting Started	Phase 3: Active

Programme Manager (£2,500 per term)		Account Manager (free)

Bookable Support Slot (free)

Ongoing support and consultancy

Primary schools

A primary school with a standard data migration could get their minimum setup done absolutely free. We recommend you book the further services and training below according to what your school wants to get out of the move to Arbor. All of your training can be completed flexibly online. A good place to start are the Arbor Foundations sessions, which will take your staff through the core system before and after their site launches.

Phase 1: Technical Migration	Phase 2: Getting Started	Phase 3: Active
Primary onboarding team (free, 8 weeks)		Account Manager (free)
Ongoing phone, email and web chat (free)
