(b.) Pricing (including unit prices, volume discounts (if any), data extraction etc.)

Day rates for our consultancy services are set out in the SFIA rates table and are dependent on the level and experience of the consultant and nature of requirement.

(c.) Service management details;

Each client assignment is allocated an Acuity Assignment Director who is responsible for overseeing the services to be delivered. The Assignment Director will oversee quality assurance of all regular checkpoint and highlight reports prior to delivery to the customer to ensure all activities and agreed products are being delivered to plan.

The Assignment Director maintains contact with the lead consultant on at least a weekly basis and as and when required via telephone, email and face to face meetings to monitor progress of the assignment and to ensure any risks and issues which may arise are managed appropriately. In addition the Assignment

Director will also periodically liaise with the client to ensure they are satisfied with the progress of the work and the conduct of the consultant, and acts as a point of escalation for the client should they require it.

Through these regular meetings and feedback with clients we would look to assess their satisfaction with consultants' performance and address any performance issues in the rare likelihood that they may arise.

(d.) Service Levels (e.g. performance, availability, support hours, severity definitions etc.);

Acuity makes every effort ensure and maintain the highest standards of delivery from all of its consultants. Internally we have recruited consultants who together have created an organisational culture and ethos which is underpinned by our professional integrity in all that we do.

Each client assignment is allocated an Acuity Assignment Director who is responsible for overseeing the services to be delivered. Throughout the assignment the Assignment Director will liaise with the client to ensure they are satisfied with the progress of the work. In the unlikely event that a customer complaint arises, this would be escalated to the Assignment Director for investigation.

In addition, at the end of every assignment we issue the client with a Client Satisfaction Form to complete. This focuses on areas such as the relevance of the consultants' knowledge and skill set, timeliness of delivery and how Acuity's delivery contributed and added value to meeting business requirements. It also focuses on any areas in which the client feels we may be able to improve the quality of service. We then take this feedback onboard and consider any amendments which may be required in our approach to future assignments.
