

nimbus Service Definition

Digital & Technology Innovations Accelerating your journey to the cloud with confidence.

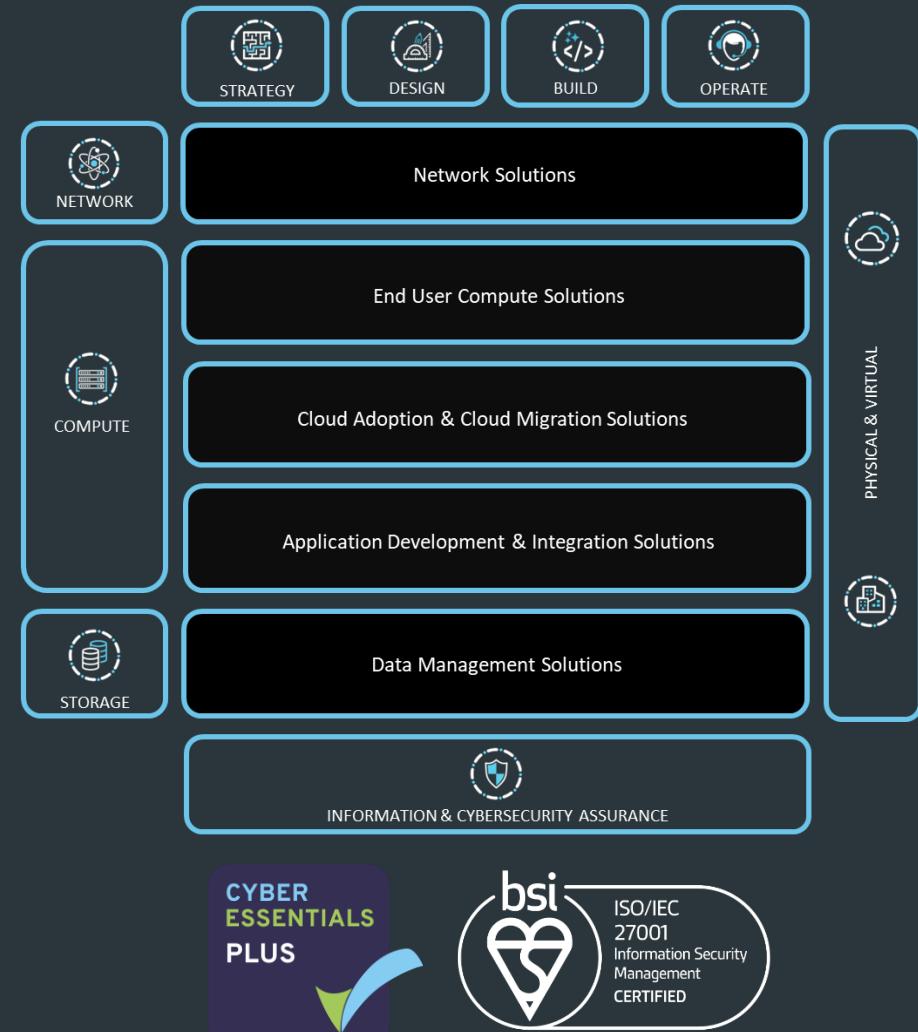

Nimbus provides a comprehensive portfolio of digital and technology services, including expertise in strategy development, design, build, and operation of our customers' applications and services running in the cloud.

Our services can be used individually or collectively to support your digital and technology optimisations and transformations. Enabling you to move your existing legacy workloads into the cloud while supporting you to design, build and operate your next generation of business and IT services in and for the cloud.

We provide an end-to-end collection of services, underpinned by our experience agile architects, designers, developers, infrastructure engineers, testers, and support engineers, including:

- Cloud Hosting Services for Microsoft Azure
- Cloud Software Services for all Microsoft Technologies
- Cloud Support Services
 - Cloud Centre of Excellence (CCOE) Services
 - Cloud Readiness Assessment Services
 - Cloud Service Design & Service Management Services
 - Cloud Adoption, Migration & Transformation Services
 - Cloud Network Design, Implementation & Support Services
 - Cloud End User Compute (EUC) Design, Implementation & Support Services
 - Cloud Application Migration & Support Services
 - Cloud Data Migration & Support Services
 - Cloud Integration & Support Services
 - Cloud Security Operations (SecOps) Support Services
 - Cloud Development Operations (DevOps) Support Services
 - Cloud Technical Operations (TechOps) Support Services

Whether you are considering moving to the cloud or are already in the cloud, we can help you keep up with the fast-changing pace of cloud technologies.

nimbus Service Definition

Digital & Technology Innovations Accelerating your journey to the cloud with confidence.

Service Name

Cloud Centre of Excellence (CCoE) Services

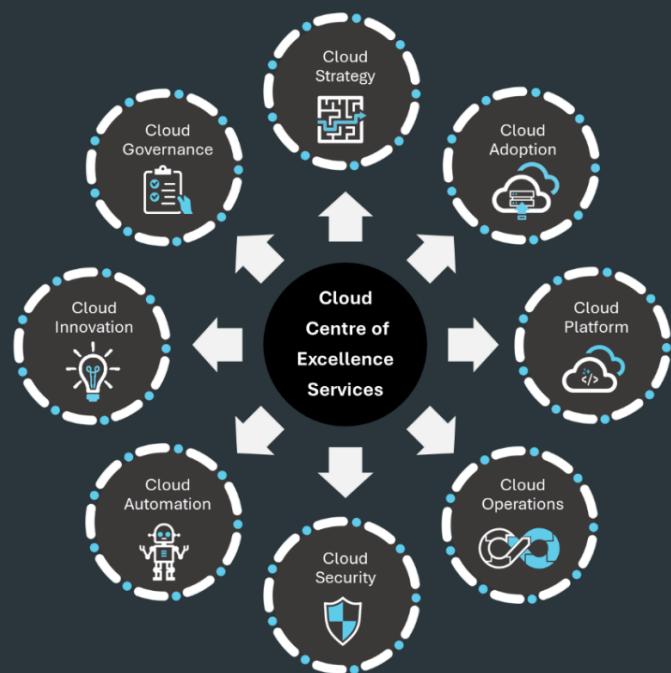

Service Description

Nimbus delivers Cloud Centre of Excellence (CCoE) Services to accelerate secure cloud adoption, innovation, and operational excellence. Our CCoE model provides strategic guidance, governance, automation, hybrid-cloud and multi-cloud enablement underpinned by FinOps best practices.

Through CCoE cloud partner frameworks, maturity model assessments, and established verified playbooks, we help organisations design, migrate, and operate cloud services with agility and compliance. Our CCoE experts support modern DevOps, DevSecOps, and agile digital transformations, ensuring scalable, secure, and cost-effective cloud adoption and operational excellence.

Service Overview

We can provide a CCoE model that provides Cloud Strategy, Adoption, Platform, Operations, Security, Automation, Innovation, and Governance functions:

Our Cloud practitioners will work with you to establish and operate your Cloud Centre of Excellence to help you achieve business and technical agility through innovative use of modern cloud services.

We can provide experienced experts and leaders to help you with Cloud Adoption, Cloud Strategy, and Cloud Governance alongside Architects and Engineers to design, build, operate and automate your cloud platform.
