GOOGLE CLOUD PLATFORM (GCP) LANDING ZONE

OVERVIEW

Service Description

A key tenet for Google's Cloud Adoption Framework for GCP, the Landing Zone service ensures the environment is correctly designed and implemented to accommodate enterprise workloads. Delivered by Google certified Computacenter architects, and engineers. Landing Zones can be deployed either in a single region or scaled out across multiple regions. Using Infrastructure as Code and pre-built agile artefacts, the implementation of the solution is accelerated, repeatable and consistent.

Key Features for our Customers

- ❖ Google Cloud Premier Partner and Reseller
- ❖ Secure enterprise scale GCP Landing Zone for your organisation's workloads
- ❖ Infrastructure as Code ensures solution is repeatable and consistent
- ❖ CIS and NCSC security framework compliant
- ❖ Accelerated delivery using pre-built agile artefacts
- ❖ Aligned to Google and Computacenter best practices for cloud adoption
- ❖ Cost optimised service including billing and budget Management
- ❖ GCP certified squad with years of landing zones delivery experience

Key Benefit for our Customers

- ❖ Rapid workload onboarding to quickly and securely onboard business lines
- ❖ Policy-driven security provides segregation, security guardrails and ensure compliance
- ❖ Centralised control for identity, management, connectivity, and security
- ❖ Platform components can be deployed via automation pipelines
- ❖ Bespoke automation and ITSM/ITOM integrations for enterprise cloud operations
- ❖ Agile sprint-based approach to delivery
- ❖ Knowledge Transfer and handover sessions for your staff
- ❖ Tiered service offerings that suit your needs and circumstances

GOOGLE CLOUD PLATFORM (GCP) LANDING ZONE

OVERVIEW

Service Description

Computacenter's GKE services form a roadmap for adopting Google's managed Kubernetes platform. Our certified consultants provide readiness and strategy assessments, through to proofs-of-concept and into production, advising on best practices and building a platform for long-term success. Simultaneously, we assist in modernising legacy applications via our application migration service.

Key Features for our Customers

Examples of Customers who have used our Google Cloud Platform(GCP) - Landing Zone service include:

Key Benefit for our Customers

Computacenter is a leading independent technology partner trusted by large corporate and public sector organisations. We help our customers to source, transform and manage their technology infrastructure to deliver digital transformation, enabling users & their business.

We are a Google cloud partner and have certified and experienced architects, who work closely with our customers cloud & operations teams throughout the engagement to ensure needs are met and knowledge transfer is successful. Our customer successes result from our ability to deliver end to end solutions for Enterprise IT, integrating technologies in complex solutions across the leading public clouds and private cloud platforms.

GOOGLE CLOUD PLATFORM (GCP) LANDING ZONE

OVERVIEW

WHAT IS COMPUTACENTER PUBLIC CLOUD FOR ENTERPRISE?

Computacenter Public Cloud Services offers customers a way to optimise their public cloud adoption and implement its use in a structured, governed way across their entire enterprise. Our services are made up of 4 main solutions, supported by our unique Cloud Adoption Framework. As part of these solutions, we supply both professional consulting services and technology sourcing.

PLAN	CLOUD PLATFORM STRATEGY	We help our customers develop a bespoke modern platform strategy for public cloud, that is ready for the required enterprise scale, based on industry and Computacenter best practices.
APPLY	CLOUD ENTERPRISE FOUNDATIONS	Creating an enterprise-ready public cloud foundation, based on our 'best-architected' framework, aligned to our customers requirements for security, compliance, operational efficiency and scale.
APPLY	CLOUD OPTIMISATION	Helping our customers integrate and optimise their public cloud environments to realise the benefits, be commercially efficient and both technically and operationally aligned with best practice
SCALE	APPLICATION MIGRATION	Scale public cloud adoption efficiently using our migration factory, a completely governed process to transform workloads across the whole business

WHAT ARE OUR CORE SERVICES?

The core services that we provide in public cloud to customers are as follows:

- Marketplace sourcing
- Strategy and Roadmap
- Commercial Guidance
- Cloud Center of Excellence
- Landing Zones
- Well Architected Reviews

WHAT IS OUR CLOUD ADOPTION FRAMEWORK?

Our Adoption Framework is a unique public cloud methodology, designed to provide a structured but adaptive approach to adopting an enterprise cloud IT services model, whether that's building and migrating to private, public or multi-cloud platforms.

The framework provides our customers with key tactical and strategic activities needed to spark large scale adoption, maintain the velocity of their cloud migration, and ensure the longevity of their operations. Its flexible, modular approach allows businesses to enter at a point relevant to their needs and stage of cloud adoption, conduct only those activities needed to move them forward, and build a programme of execution tailored to their IT requirements.

WHY COMPUTACENTER?

At Computacenter, we know enterprise, we know cloud and we know what it takes to get the public cloud fully in-line with an enterprise's digital strategy to keep their business accelerating in the long term:

- Enterprise & Public Sector focused
- Performance-based outcomes
- Delivery at scale
- Vendor independence
- Partner ecosystem
- Global reach

OUR PARTNERSHIPS

We are proud to have built powerful partnerships with the world's leading technology providers.
