AGILE TRANSFORMATION SERVICES

OVERVIEW

Our Experience

Computacenter has extensive experience in multi-cloud, public and private sector in Agile transformations. We first identify what the goals are and agree the current agile maturity, tailor the transformation model so that it is right for you.

Our expert resources can coach and support your team, which can be especially helpful when the desired outcome is amorphous, so we can enable the introduction of iterative release plans to realise benefits sooner.

Why choose Computacenter?

Computacenter is Europe's leading independent provider of IT infrastructure services, enabling users and their business. We advise organisations on IT strategy, implement the most appropriate technology, optimise its performance, and manage our customers' infrastructures.

In doing this, we help CIOs and IT departments in enterprise and corporate organisations maximise productivity and the business value of IT for internal and external users.

Our market leading scale and logistics engines enable us to provide highly competitive pricing, the ability to deliver effectively, whatever the scale of the government organisation and rapidly serve office locations and end users throughout the UK.
