SERVICE DESCRIPTION – CLOUD GOVERNANCE

OVERVIEW

Service Description

Correctly managing the deployment of cloud services within an organisation requires a governing set of processes, rules and policies. Computacenter can provide a framework and expertise to support business and IT leaders to enhance data security, manage cost, lower risks, and ensure the smooth operation of cloud systems.

Key Features for our Customers

- ❖ Assess current Governance and decision-making processes
- ❖ Creation of efficient Governance process
- ❖ Creation of Process, Rules and Standards
- ❖ Policy Definition such as Tagging strategies
- ❖ Expertise and Experience delivering cloud projects
- ❖ Cloud Premier Partners for AWS, Azure, Google and vmWare
 - ❖ Cloud certified professionals with years of delivery experience

Key Benefit for our Customers

- ❖ Clearly defined governance processes
- ❖ Cloud governance framework enabling efficient use of cloud services
- ❖ Standardisation of processes and standards
- ❖ Policy to drive key initiatives such as FinOps.
- ❖ Improves Cloud Resource usage
- ❖ Reduces Shadow IT and Cloud based Technical Debt
- ❖ Improves Security and Data Management

SERVICE DESCRIPTION – CLOUD GOVERNANCE

OVERVIEW

WHAT IS COMPUTACENTER PUBLIC CLOUD FOR ENTERPRISE?

Computacenter Public Cloud Services offers customers a way to optimise their public cloud adoption and implement its use in a structured, governed way across their entire enterprise. Our services are made up of 4 main solutions, supported by our unique Cloud Adoption Framework. As part of these solutions, we supply both professional consulting services and technology sourcing.

PLAN	CLOUD PLATFORM STRATEGY	We help our customers develop a bespoke modern platform strategy for public cloud, that is ready for the required enterprise scale, based on industry and Computacenter best practices.
APPLY	CLOUD ENTERPRISE FOUNDATIONS	Creating an enterprise-ready public cloud foundation, based on our 'best-architected' framework, aligned to our customers requirements for security, compliance, operational efficiency and scale.
APPLY	CLOUD OPTIMISATION	Helping our customers integrate and optimise their public cloud environments to realise the benefits, be commercially efficient and both technically and operationally aligned with best practice
SCALE	APPLICATION MIGRATION	Scale public cloud adoption efficiently using our migration factory, a completely governed process to transform workloads across the whole business

WHAT ARE OUR CORE SERVICES?

The core services that we provide in public cloud to customers are as follows:

- Marketplace sourcing
- Strategy and Roadmap
- Commercial Guidance
- Cloud Center of Excellence
- Landing Zones
- Well Architected Reviews

WHAT IS OUR CLOUD ADOPTION FRAMEWORK?

Our Adoption Framework is a unique public cloud methodology, designed to provide a structured but adaptive approach to adopting an enterprise cloud IT services model, whether that's building and migrating to private, public or multi-cloud platforms.

The framework provides our customers with key tactical and strategic activities needed to spark large scale adoption, maintain the velocity of their cloud migration, and ensure the longevity of their operations. Its flexible, modular approach allows businesses to enter at a point relevant to their needs and stage of cloud adoption, conduct only those activities needed to move them forward, and build a programme of execution tailored to their IT requirements.

WHY COMPUTACENTER?

At Computacenter, we know enterprise, we know cloud and we know what it takes to get the public cloud fully in-line with an enterprise's digital strategy to keep their business accelerating in the long term:

- Enterprise & Public Sector focused
- Performance-based outcomes
- Delivery at scale
- Vendor independence
- Partner ecosystem
- Global reach

OUR PARTNERSHIPS

We are proud to have built powerful partnerships with the world's leading technology providers.
