VMWARE TANZU
OVERVIEW

Service Description

VMware Tanzu is a unified, multi-cloud platform upon which enterprise modern applications and microservices can run.

VMware Tanzu Application Service (TAS) allows developers to leverage container technology and environmental automation.

VMware Tanzu Kubernetes Grid (TKG) provides an evergreen Kubernetes runtime to run any containers required.

Key Features for our Customers

- ❖ Container creation from application code
- ❖ Container deployment
- ❖ Container runtime management
- ❖ Application high availability management
- ❖ Application lifecycle management
- ❖ Application and systems monitoring
- ❖ Software Defined Networking
- ❖ Kubernetes Platform as a Service (PaaS)
- ❖ Container as a Service (CaaS)

Key Benefits for our Customers

- ❖ Quickly create application containers using an automated process
- ❖ Securely manage containers centrally, and scan for vulnerabilities
- ❖ Hands off management of container instances and health
- ❖ Automatically scale instances up or down depending on demand
- ❖ Securely manage application and service bindings centrally
- ❖ Quickly collate logs and metrics and report on system health
- ❖ Quickly make application or service instances available on the network
- ❖ Quickly provide a managed Kubernetes environment to developers
- ❖ Free developers to spend time writing applications, not container scripts
- ❖ Ensure your applications are all secure by using curated opensource

VMWARE TANZU
OVERVIEW

Our Experience

Computacenter has experience in many aspects of Modern Application adoption. This includes design, build, migrate, run and optimisation of Container and Hybrid Cloud environments; cost optimisation of existing and future public cloud consumption; cost optimisation and ease of delivery via Hybrid Cloud Marketplaces and delivery of automated Infrastructure as Code environments.

Why choose Computacenter?

At Computacenter, we know enterprise, we know cloud and we know what it takes to get modern applications fully in-line with an enterprise's digital strategy to keep their business accelerating in the long term:

• Enterprise & Public Sector focused

• Performance-based outcomes

• Delivery at scale

• Vendor independence

• Partner ecosystem

• Global reach
