

AI Security Architecture consultancy: Pricing

This pricing document must be read in conjunction with the *2T Security Skills Framework for the Information Age rate card*.

Key information

This service is resource-based, and is priced at £450 – £1,800 per consultant, per day, typically used during transformation project phases. Arrangements for other expenses will be agreed in writing with the client at the start of the engagement.

For 'eyes on glass' monitoring and response, this is priced at £600 - £1000 per analyst, per 24-hour period. The number of required analysts is subject to an agreed playbook being generated, required triage timeframes, expected number of alerts, and/or the number of devices. The playbook must be developed in conjunction with our consultants, and subject to a test and bedding-in period.

Remote access to monitoring tools, and ticketing systems is required. If these are not available, they can be provided at an extra cost.

Rates and expenses are exclusive of VAT, and are to be agreed with the client before service commencement.
