## Stone IT Asset Disposal Services

All collections with 50 or more qualifying items will be done to calculate any rebate value, please get in touch with the inventory details through our dedicated website below or email [craig.campion@stonegroup.co.uk](mailto:craig.campion@stonegroup.co.uk)

### Booking a Safe Collection

- Please book your collection via the Stone ITAD portal
- Ensure all collectable items are placed into a single area and easily accessible.
- Please ensure an equipment list is emailed to Stone, to ensure verification of all collected assets for disposal.

Our planet is in the midst of an environmental crisis. In our increasingly globalised society, responsibility lies with all citizens of the world to combat this, by taking action to minimise their negative impact on the environment, and work together to create a greener climate.

Organisations, across every industry and sector, are facing demands from stakeholders, society and government alike, to actively adopt greener processes and ensure sustainability is at the heart of their operations and contribute to the global fight to save the planet.

### Secure Disposal of your End-of-life IT assets

Our award-winning, WEEE compliant recycling facility guarantees your end-of-life IT assets are recycled securely, to protect you from data breaches and the financial penalties they can incur. We ensure your sensitive data is erased to the same prestigious standards as the MOD, so we can provide you with peace of mind that your valuable information stays yours.

We also offer rebates for your equipment that can be given a new life, so you can use the income to spend on the new projects that help you move forward.

### What to Expect from Stone's ITAD Services

- Collections: We collect your devices using our own solid sided GPS-tracked vehicles fitted with 4 cameras and load weighting for maximum security.
- Full WEEE Accreditation: Our facility is fully accredited with certifications including ISO 27001: Information Security Management, ADISA Distinction, DIPCOG and Cyber Essentials.
- Secure Data Erasure: Your data is erased using industry-leading data wiping software Blancco. This ensures that we dispose of data correctly and securely, in accordance with GDPR regulations.
- Complete Traceability: We provide you with a full audit report and certificate of disposal, to ensure complete traceability.
- Potential Rebates: We can help you realise any residual value in any kit we take back, offering you fair market rebates on qualifying equipment.
