DIGITAL MARKETPLACE G-CLOUD 14 – CLOUD SOFTWARE-PRICING FOR PUBLIC SECTOR ENTITIES ONLY

D&B FINANCE ANALYTICS SUITE PRODUCT OVERVIEW

D&B Finance Analytics is an AI-driven platform powered by the Dun & Bradstreet Data Cloud—for finance leaders wishing to improve finance operations and reduce cost through insight, automation, and enhanced user experience.

Intelligent, flexible, and easy to use, D&B Finance Analytics allows finance teams to manage risk, increase operational efficiency, enhance business insight, and improve the user experience.

PRICING OVERVIEW & PURCHASE OPTIONS

There are two main product options – the details for each is found in Table 1.

TABLE 1 PRODUCT OPTIONS

Business Process	Tier 1	Tier 2
Ability to search and pull global reports to make judgmental credit decisions	Y	Y
Receive alerts transactionally, for tracking key changes in interested DUNS	Y	Y
Perform basic Portfolio Management activities on businesses that have been transactionally assessed	Y	Y
Import your accounts receivable data with Dun & Bradstreet data and analytics to understand risk exposure and drive cash management strategies	N	Y
Receive alerts for tracking key changes on the entire customer base	N	Y

PRICING FOR FINANCE ANALYTICS TIER 1 AND TIER 2

Pricing is determined by the expected number of reports requested over a 12-month period and the level of UK and Non-UK (International) reports.

The records then accessed via Finance Analytics is split into two buckets:

The Live Reports

Lists all the reports from countries that are considered "live". Live means data is automatically refreshed instead of buying a new report each time to get fresh data. To be added to this list a user must save the purchased report to their portfolio or added it to a folder. By default, the list will include the Country and Company (name, address, DUNS and registration number). Then the user can add up to 13 more D&B Live Report data elements.

The Portfolio Records

Lists all of the accounts and D&B Live reports listed as above. By default, the list will include the Account (name, address, DUNS and account #), Country and Company (name, address, DUNS and registration #). Then the user can add up to 12 more account and live report data elements. This list also represents the companies and accounts included in Portfolio Insight. The only exception is when a user manually selects an application to be excluded from their portfolio.

Product	Data	UK / Europe		Global		UK / Europe		Global		UK / Europe		Global	
		1		2		3		4		5		6	
		Region 1	Region 2	Region 1	Region 2	Region 1	Region 2	Region 1	Region 2	Region 1	Region 2	Region 1	Region 2
FA Tier 1	Portfolio Records	300	50	1,000	300	5,000	500						
	Live Reports	60	10	200	60	1,000	100						
					0								
	Price	£2,553	£3,540	£6,558	£12,079	£21,301	£30,239
