KPMG G- Cloud

Service Pricing Considerations

- Pricing for this service is based on the team and timescales we agree with you in scoping your requirements.
- This will be based on the applicable SFIA rate card costs which can be found in the Rate Card document available as a separate download on our Digital Marketplace service page – we can offer fixed fee on request.
- The timescales upon which we shall agree have a dependency on your specific scope requirements and the size and complexity of your organisation. We shall work with you to best size the engagement and our team to meet your needs.
- The timeline and team will be tailored depending on the level of involvement you require from your own resources in driving and delivering activities.
- KPMG are happy to support organisations with multiple cost-centres with the option to aggregate the billing/reporting across services.
- KPMG offer a minimum contract period of five working days.
- KPMG will invoice you monthly in arrears based on the days worked in that calendar month. Our invoices will be payable within 30 days.
- We're happy to discuss pricing arrangements with educational organisations.
- KPMG offer you the option to engage our services via purchase order.
- VAT is not included in our published rates.
