Automation Consultants Consultancy

April 2024

Consultancy Services

Automation Consultants is an Atlassian Platinum Solution Partner with proven experience in delivering successful projects for a range of customers across numerous industries. AC is able to take varied requirements and translate these into easy-to-use solutions utilising the Atlassian stack, and its rich marketplace of Apps, to enhance the functionality.

Automation Consultants is also proud to be an Amazon Web Services (AWS) Select Partner, with significant experience in configuring, managing and supporting infrastructure (including Atlassian applications) within AWS. AC is also experienced with hosting Atlassian applications in Microsoft Azure and Google Cloud Platform (GCP) and is therefore able to choose the most appropriate solution for its customers.

AC prides itself on having personable, dependable consultants who go the extra mile to achieve extraordinary results for its customers. AC hires the best talent within the industry, who keep up to date on the latest technologies through ongoing training and development. AC has consultants who hold industry-recognised accreditations across numerous faculties including Atlassian, AWS, GCP, Scaled Agile Framework® (SAFe), PRINCE2 Agile, and ITIL® 4.

AC is also able to advise and provide expertise across the whole software lifecycle, and has experience working with a wide range of Agile, DevOps and RPA technologies and practices. AC has a range of partnerships with relevant companies to facilitate this.

Consultancy: Automation Consultants (AC) can provide consultancy work on the migration, implementation, configuration and integration of various DevOps/Agile/RPA systems.

The standard rate for AC consultancy is **£900 / day** however reduced rates can be negotiated depending on the complexity of a project and the level of experience required.

Amazon Web Services Hosting: AWS hosting costs depends on numerous factors and so this is priced by a case by case basis. If you require a price for AWS hosting and consultancy please contact dominic.coombs@automation-consultants.com.
