

## **Automation Consultants AWS Consultancy**

May 2022

### **Consultancy Services**

As Enterprise customers move towards adopting the cloud at scale, some find their people need help and time to gain Amazon Web Services (AWS) skills and experience. Automation Consultants (AC) provides managed services for server-based workloads which delivers a scalable, secure and compliant infrastructure operation within AWS. AC operates AWS on your behalf, providing a secure and compliant AWS Landing Zone, a proven enterprise operating model, on-going cost optimization, and day-to-day infrastructure management. By implementing best practices to maintain your infrastructure, AC helps to reduce your operational overhead and risk. AC automates common activities, such as change requests, monitoring, patch management, security, and backup services, and provides full lifecycle services to provision, run, and support your infrastructure. Backed by Service Levels with accompanying service credits. AC unburdens you from infrastructure operations and term contracts so you can direct resources toward differentiating your business.

AC prides itself on having personable, dependable consultants who go the extra mile to achieve extraordinary results for its customers. AC hires the best talent within the industry, who keep up to date on the latest technologies through ongoing training and development. AC has consultants who hold industry-recognised accreditations across numerous faculties including Atlassian, AWS, GCP, Scaled Agile Framework® (SAFe), PRINCE2 Agile, and ITIL® 4.

AC is also able to advise and provide expertise across the whole software lifecycle, and has experience working with a wide range of Agile, DevOps and RPA technologies and practices. AC has a range of partnerships with relevant companies to facilitate this.
