Agile at Scale with Atlassian

Service Overview

SAFe for Lean Enterprises is a knowledge base of proven, integrated principles, practices, and competencies for Lean, Agile, and DevOps. The Valiantys “Agile Teams & Tools Readiness including Level-Up” Service is designed for organisations that need to determine their level of agile maturity across multiple development teams so that they can obtain clear a perspective to guides the next steps of their agile transformation journey.

Scrum, stand-up, burndown, backlog, sprints: proven methods your teams have mastered. Yet achieving agility at scale is not straightforward. The more teams, the more complex it will become. Teams often struggle with strategic alignment, backlog visibility, cross-team coordination and dependency management, and more. **The right toolset, properly used, makes a big difference in the success and cost of your Agile transformation.**

Benefits of Agile Teams & Tools Readiness including Level-Up with Valiantys

We aim to help our customers get the most value from their agile transformation by ensuring that they have the right tools for their needs and they use them in the best possible way (proper configuration, proper training, coaching). Our goal is to make you self-sufficient by helping build your sustainable, internal agile capability, reducing dependency on outside firms.

- **Value Driven** - Agile accelerates value delivery

Methodology

For new and current Valiantys customers who seek the benefits of agile at scale, the Valiantys Enterprise Agility Practice is a specialised group of certified SAFe® Practice Consultants (SPCs) and coaches that bridges the gap between agile methods and tools to enable strategically aligned, efficient and effective business value delivery.

Unlike traditional consulting firms that provide advice and leave tool selection and implementation up to you, we are with you until your agile methods and mindset are fully enabled and supported by a properly configured toolset, helping build your sustainable, internal agile capability.

- Agile frameworks such as SAFe, DAD, Nexus, Scrum@Scale and LeSS
- In-depth analysis of agile maturity level: Team, Program, Portfolio, and Enterprise
- Agile tools assessment for current or desired tools. E.g Jira Software, Jira Align, Jira Plans (a.k.a Advanced Roadmaps), BigPicture, Agile Hive, Easy Agile, and Tempo's Strategic Portfolio Management (SPM)
- Agile Tools Level Up by providing expert guidance on how to get the most out of your Atlassian Tools
- Assessment of existing processes
- Training & enablement on tools in line with processes
- Agile Coaching on best practices and ceremonies (PI Planning, Quarterly planning, Scrum, Kanban, Standups, Sprint Planning, Retrospectives)
