1. Service Pricing

The Esri UK ArcGIS Online - Geographic Information System (GIS) Service includes the following components:

- A portal page and access to all the functionality in ArcGIS Online described in the Service Definition, subject to that app being included in the user types purchased.
- A minimum of one Creator Named User Account is required. Additional user types can be added to the Organisational Account – please refer to pricing table.
- A pre-defined number of Service Credits, which covers typical usage by most customers – an Esri UK representative will be happy to discuss how credits are consumed and the quantity your organisation may require.

Pricing is shown in the tables below.
