1. Service Pricing

This Pricing Document applies to the Esri UK ArcGIS in the Cloud service. This pricing applies when you wish Esri UK to set up and support ArcGIS Enterprise and/or ArcGIS Pro on an Esri UK approved third-party hosted cloud service.

The service is offered with two options. For Option 1, you provide your own ArcGIS licences or procure new term licences from Esri UK directly or through another approved framework. Esri UK can advise on procurement routes for the licences. For option 2, the service pricing includes ArcGIS licences.

Your Call-Off order must indicate the required option and any required ArcGIS products.

Our Managed Cloud Services are offered on a Managed Cloud Service Unit (MCSU) basis. The number of MCSUs required will be calculated based on:

- Infrastructure Sizing and Architecture.
- Service Level.
- Software Requirements.
- Support Requirements.

If you need to modify the base deployment and managed service (for example, add hosting infrastructure and/or service levels) you can do this by purchasing additional Managed Cloud Service Units on a per unit basis. The number of units required will be calculated when designing your service.

Description	Cost per unit	Units required
G-Cloud 15 - ArcGIS Managed Cloud Service Unit	£500	Dependent on service configuration

Please see the following table for two example services.

Example Services	Number of G-Cloud 15 - ArcGIS Managed Cloud Service Units
G-Cloud 15 - ArcGIS Enterprise Bronze Managed Service with Base Deployment (4 vCPU; 32GB Memory, 256GB Storage), with bring your own licenses (Option 1)	140
G-Cloud 15 - ArcGIS Pro Bronze Managed Service, with bring your own licenses (Option 1)	168
