How we work with you

Your Partner - From Implementation Through to Ongoing Success

We combine our expertise, so you get the most value from our solution, every step of the way.

Successful Implementation

We guide you through implementation so you see value quickly.

Continuous Improvement

We help you optimize and evolve your processes – continuously.

Technical Support

Access expert help when you need it.

An Evolving Product

Our solution never stands still. Your feedback matters to drive enhancements.

Customer Community

Learn and grow with your peers at webinars, forums or the newsletters.

Assure Audit

AUDIT

Implement Efficient Auditing Processes

Do you have the right processes in place to check that you are doing the things that you set out to do?

Continuously reviewing your safety management processes will help ensure that you keep getting better within each area of the business, while staying compliant to local regulations and best practices set by your organisation.

With Assure you can implement tools across all your business functions to cater to their specific audit requirements. Improve consistency and accuracy, whilst saving time and resource.

In addition to audits, create your own inspections and checklists in order to complete, report and follow up on all areas of your business. Boost engagement across your organisation by making these processes easily accessible with our mobile app AssureGO+.

EXPECTED OUTCOMES

Ownership – No hidden costs and delays to build or update your own processes.

Consistency – Embed an effective and consistent auditing approach throughout your organisation.

Efficiency – Simply capture information at 'point of work', and eliminate the need for time consuming double entry of information.

Accountability – Resolve issues through effective action management and ensure compliance with your management processes.

HOW DOES IT WORK?

Flexibility – Create an unlimited number of templates. Intelligent questions and branching functionality allows for different response types and ensures users only see relevant questions.

Share templates across the organisation – Easily share templates with others to save time and avoid duplication of work.

Easy completion of audits – Conduct audits at the point of work on the mobile app AssureGO+, even when offline. Attach supporting evidence and assign actions.

Built-in action management – Delegate tasks to relevant individuals and automatically track them to close-out.

Built-in approval process – Make sure every audit is signed off by a manager or compliance specialist.

Understand your audit performance – Easily analyse audit and inspection data to identify opportunities for improvement.

Proactively Manage Safety with Assure

Assure comes with a suite of standard features that support effective health and safety management. Create a flow of information by capturing data on the mobile web app AssureGO+. This triggers notifications to prompt next steps and ensures that any required actions are closed out efficiently and effectively.

All activities can be visualised and analysed in easy-to-use, configurable dashboards. This enables organisations to make the right strategic decisions to drive continuous improvement.

EVOTIX

WHAT'S INCLUDED?

AUDITS & INSPECTIONS

Create an unlimited number of templates using intelligent questions and branching functionality.

ASSUREGO+ MOBILE APP

Update the mobile app with new templates at any time. Complete audits and inspections in any location, on- and offline.
