not ok.**

We're here to help our customers use technology to transform workplace health, safety and sustainability.

700+ Customers Use Evotix Assure To

Engage and communicate

Demonstrate compliance

Draw insights to make improvements

Reduce incident levels and save money on insurance

Easily complete RFQ's to win more business

Retain customers and protect revenues

How we work with you

Your Partner - From Implementation Through to Ongoing Success

We combine our expertise, so you get the most value from our solution, every step of the way.

Successful Implementation

We guide you through implementation so you see value quickly.

Continuous Improvement

We help you optimize and evolve your processes – continuously.

Technical Support

Access expert help when you need it.

An Evolving Product

Our solution never stands still. Your feedback matters to drive enhancements.

Customer Community

Learn and grow with your peers at webinars, forums or the newsletters.

Assure Asset

ASSET MANAGEMENT

Ensure equipment is available and safe to use

Improperly managed equipment, like machinery or PPE (Personal Protective Equipment), can pose a risk to employee safety and business operations. Often widely dispersed and used by multiple employees and contractors, it can be challenging for organisations to maintain full visibility of maintenance and testing requirements.

Assure gives you greater visibility and control over your assets and regulatory checks. Track the location and condition of every piece of equipment, to easily identify defects, and make sure maintenance and repairs are completed as needed.

Promote a proactive approach to asset maintenance across your entire organisation by making it easy to identify and track issues early.

EXPECTED OUTCOMES

Visibility – Ensure every piece of equipment is captured and registration, maintenance, testing and compliance information is documented.

Compliance and safety – Provide a full audit trail of statutory testing and maintenance checks.

Consistency – Formalise maintenance and inspection processes across your entire organisation.

Accountability – Delegate and track follow-up actions to completion. Ensure inspections are performed to the required standards.

HOW DOES IT WORK?

Keep track of your equipment – Record and track your assets in one place to ensure they are maintained and safe to use. Document any equipment, like PPE, that is issued to your people to ensure they have received it, it is fit for purpose and safe to use.

Ensure equipment is safe to use – Provide your teams with mobile tools to complete pre-use inspections and identify any issues to be rectified immediately.

Stay ahead of your maintenance requirements – Set automated reminders ahead of test and inspection due dates to ensure you do not miss a deadline. Standard forms ensure the right information is captured for each piece of equipment.

Track statutory maintenance obligations – Capture and stay ahead of required maintenance and checks such as portable and fixed wiring, emergency lighting, legionella, etc.

Ensure defects are taken care of quickly – Introduce clear processes for reporting defect and unplanned maintenance. Automated workflows ensure that the right people are informed and can act immediately.

Proactively Manage Safety with Assure

The Assure EHS solution enables organisations to transform their health and safety processes by managing all activities in one central tool. Report and capture all your safety data on the mobile web app AssureGO+. Trigger next steps with automated workflows and ensure that required actions are closed out effectively.

Visualise and analyse activities in easy-to-use, configurable dashboards, enabling your organisation to make the right strategic decisions and drive improvement.

EVOTIX

WHAT'S INCLUDED?

EQUIPMENT REGISTER

Log and keep track of assets and equipment across your organisation.

ASSUREGO+ MOBILE REPORTING

Complete your inspections and maintenance forms on mobile or tablet in the field for immediate data entry and follow up.

QR CODE SCANNING

Scan equipment QR codes on mobile to ensure the right equipment details are completed on the form.

FORM BUILDER

Create innumerable maintenance and inspection forms and share across your teams for consistency.

ACTION TRACKING

Track actions and their status to close-out. Automate reviews and inspection reminders to ensure no due dates are missed.

INSIGHTS AND REPORTING TOOLS

Easily share an overview of your equipment and inspection status with other stakeholders. Spot trends to identify areas for improvement across your teams.
