How we work with you

Your Partner - From Implementation Through to Ongoing Success

We combine our expertise, so you get the most value from our solution, every step of the way.

Successful Implementation

We guide you through implementation so you see value quickly.

Continuous Improvement

We help you optimize and evolve your processes – continuously.

Technical Support

Access expert help when you need it.

An Evolving Product

Our solution never stands still. Your feedback matters to drive enhancements.

Customer Community

Learn and grow with your peers at webinars, forums or the newsletters.

Assure Risk

RISK MANAGEMENT

Identify, Control & Reduce Risk

Every organisation faces risks – managing risk proactively is a critical part of any successful business.

As a health and safety professional, you know this well. You also know that while you cannot eliminate all risks, it is important to embed hazard awareness and risk management into your organisation's DNA.

By being proactive, and implementing preventative processes and tools, we can minimize the adverse effects that can lead to loss and ensure the workplace stays healthy and safe.

We often find that when a hazard has been recognised, or the need to create a risk assessment has arisen, the process can be inefficient.

By streamlining these across your organisation, you are able to simplify how your team identifies hazards and assess risks therefore increasing employee engagement with health and safety.

EXPECTED OUTCOMES

Drive best-practice – Promote a consistent approach to managing risk across your organization so you can easily identify and drive improvements.

Simple-to-use – Make it easy for more people to complete activities with simple to use forms on AssureGO+, define automated workflows so tasks can be assigned and closed out by others in the organisation.

Improved hazard awareness – Ensure your workforce is aware of and implementing steps to reduce hazards.

Ensure compliance – Demonstrate effective management processes are in place to support regulatory requirements and best practices.

HOW DOES IT WORK?

AssureGO+ web app – Get everyone to complete activities at point of work.

Identify and document hazards – Add supporting documents through attachments.

Configure forms – Create tailored inspections and assessments to suit your needs. Refine pre-configured templates, or create your own using our intelligent template builder iQ.

Automate action, approvals and reviews – Ensure assessments are suitable, sufficient and stay relevant. Assign actions to other users to complete.

Share – Publish completed reports, incl. JHAs with your teams via AssureGO+.

Understand trends – Interactive dashboards help understand your performance, track KPIs and identify priority areas.

Proactively Manage Safety with Assure

Assure comes with a suite of standard features that support effective health and safety management. Create a flow of information by capturing data on the mobile web app AssureGO+. This triggers notifications to prompt next steps and ensures that any required actions are closed out efficiently and effectively.

All activities can be visualised and analysed in easy-to-use, configurable dashboards. This enables organisations to make the right strategic decisions to drive continuous improvement.

EVOTIX

WHAT'S INCLUDED?
