Evotix Assure Core & Safety App

Pricing Document

1. Evotix Assure Core & Safety App Pricing

The Evotix Assure Core & Safety App is priced at **£9,995 +VAT per annum**, plus a one-off implementation fee of **£7,750**.

This includes:

- License for 50 management seats.
- Support, which includes:
 - Inclusive service requests e.g., data imports, scripts (bulk updates, relabel records, bulk delete).
 - Ongoing change management support and customer engagement.
 - Adoption pack; self-service internal promotional pack to aid embedding systems, managing change, engaging workforce, measuring ROI.
 - Dedicated Customer Success Manager, email requests via support portal.
 - Individual customer success plan developed.
- Maintenance.
- Automatic updates.

Should you choose to purchase alongside other Assure modules, these are subject to the following implementation fees:

Implementation Size	Cost
Small (1-4 modules)	£7,750
Medium (5-6 modules)	£14,850
Large (7+ modules)	£20,000

For any changes during the project which lead to requirement for additional services not included within the agreed statement of work, this will be scoped and charged at a rate of £995 per day.

The price for Evotix Assure Core & Safety App is based on an organisation size of up to 500 employees. Should your business be larger than 500 employees, please get in touch.

2. Solution Discounts

Each Assure module works standalone but integrates powerfully with others to provide you with a complete, integrated solution. Evox also offers solution packages tailored per industry, also found on G-Cloud.

Combining individual modules into a solution that meets your requirements will allow you to accumulate 'seats' to access the system. Should you not require access for this increased number of users, seats can be discounted to reduce the overall purchase price of your tailored solution. Please contact Evox to discuss these options.

3. Training

Online training via webinar is priced from **£950 +VAT per day**. To gain maximum benefit we recommend a classroom size limit of seven users, however we can deliver multiple webinar sessions per day in order to reach a larger audience.

Assure has been designed with the user in mind, combining an intuitive consumer style interface with a corporate strength backbone. As a result, it meets business requirements while being straightforward and intuitive to use – not just by experts but by your organisation at large.

Administrator training is delivered organically throughout the implementation process as we collaborate on the configuration of the solution with your project team. All licensed users of Assure have access to our Knowledge Base, which contains a variety of help videos and articles.

4. Existing Data Import

Extracted data from any legacy system can be imported into Assure; the customer is responsible for formatting/reformatting their historic data into the required format to be imported. Data import is priced from **£3,000 +VAT**. Please contact Evox to discuss your data import requirements.

5. Additional Seats

Should you require more users to access the data in the system, additional licenced seats can be purchased alongside the module, starting from **£995 +VAT for a bundle of 50**. Please contact Evox to discuss your additional seat requirements.

6. Support

Included is our standard support offering, which includes access to our Technical Support Desk between 8.30am–5.30pm, Monday to Friday.

Should you require additional support outside of these hours, or any services not included in our support listing above, please contact Evotix to discuss.
