Advania Service Definition Document

G-Cloud 15 - Lot 2b: Cloud Software

Our G-Cloud 15 Services: Overview

Advania delivers enterprise-grade Software as a Service solutions that empower Public Sector organisations to modernise operations, enhance collaboration, and drive digital transformation. Our SaaS portfolio spans critical business applications including CRM, ERP, AI-powered analytics, and collaboration platforms - all accessible via secure cloud infrastructure.

See the following page(s) for an overview of the service offered.

Our Team

Our team has deep knowledge and understanding of Public Sector and a track record of challenging legacy technologies, supporting new ways of working and new service models to enable users to work most effectively.

Ordering Process

Advania provides the services on a project or ad-hoc basis. We work with clients during a pre-sales stage to understand their requirements, outcomes and business benefit sought. We then design and agree the specific services which are captured in a Statement of Work (SoW). The client is required to accept and sign the SoW, with a defined invoice schedule and then raise an associated Purchase Order for the service. Once received, we promptly mobilise resources for the engagement.

On-boarding

Advania have a standard on-boarding and mobilisation approach for all our engagements. We typically run a kick-off meeting with the project sponsor and other relevant stakeholders to confirm the scope of the engagement, the key activities and outcomes, high-level timescales and the resources/inputs required from client's team(s) to ensure success. Agreed follow-on activities are then planned/executed.

Security and Information Assurance

Our engagements can cater for services of any classification. Our staff hold a range of NSV levels of vetting and can operate with information at all levels of the Government Security Classification (GSC) scheme.

Skills and Knowledge Transfer

We recognise that transfer of skills and knowledge to the client's team is a critical element of the G-Cloud services provided to any Public Sector clients. Our consultants and engineers are experienced in delivering skills and knowledge transfer using an approach, tailored to skills gap and individual(s), ensuring effectiveness and consistency.

Service Management

Advania has a wealth of experience in Service Management and toolsets across a broad range of platforms. We work with each client to implement the best-suited toolset(s) including Service Now, Azure and Microsoft 365 native monitoring, and 3rd Party Service Management toolsets.

Pricing

Full details are provided in the pricing document, including fixed price options which could be offered on a monthly billing cycle further to a small initial scoping exercise.

Off-boarding

During project closure, we will ensure all agreed deliverables have been provided and accepted by the client, completing skills transfer where appropriate. Any client data obtained through the course of the engagement is removed from our systems in strict accordance with the data deletion policy relevant to the information classification level.

Microsoft Power Platform Solutions

Advania UK empowers organisations to modernise processes and accelerate digital transformation using the Microsoft Power Platform. We design, build and support secure low-code solutions—combining Power Apps, Power Automate, Power BI, Power Pages and Copilot Studio—to streamline workflows, improve insight and deliver scalable, cost-effective innovation across the public and private sectors.

Features

- Low-code solution design using Power Apps
- Automated workflows delivered through Power Automate
- Data insights and dashboards built in Power BI
- Secure web portals using Power Pages
- Custom copilots using Copilot Studio
- Over 1,000 connectors for seamless integration
- Dataverse providing secure, scalable data storage
- Cross-device deployment on web, tablet and mobile
- Advania UK agile delivery approach
- Governance, security and accessibility best practice baked in

Benefits

- Modernises processes and reduces manual effort
- Accelerates delivery of digital services
- Empowers teams to innovate securely
- Enhances decision-making through real-time insights
- Streamlines workflows across departments
- Reduces operational costs through automation
- Improves employee productivity and satisfaction
- Ensures secure, compliant low-code development
- Scales easily with organisational growth
- Integrates seamlessly with Microsoft 365 and external systems

Power Platform

Our Technology Focus Areas

Copilot

Microsoft Fabric

databricks

Automation

Supporting our clients with their Automation requirements through their digital transformation initiatives. Our team delivers solutions across Power Platform, Copilot Agents and Azure AI Foundry to help our clients shift the responsibility of repetitive processes to technology

Data & Analytics

Developing and Implementing secure and accessible data platforms to help our clients gain meaningful insights from their data. The teams main focus is allowing organisations to make data driven decisions, increase efficiency, spark new ideas & opportunities.

Change & Adoption

The team specialises in guiding organisations through the complexities of adopting new technologies and processes. They focus on bridging the gap between IT strategy and employees, ensuring that everyone understands, desires, and is equipped to adopt new ways of working.

About Advania UK

Advania UK – Overview

Advania UK is a leading cloud and digital transformation services provider helping ambitious organisations and their people to succeed.

We empower clients to transform the way they do business, optimise the way their people work, and provide them with flexible and secure platforms on which to operate. We are a prominent Microsoft partner, one of 25 elite partners around the world. We have offices located in London, Manchester, Milton Keynes, Reading, Cardiff and Sheffield.

Why Partner with Advania?

Microsoft Expertise and Partnership: We are one of the UK's leading and most awarded Microsoft services, solutions, and support providers with:

- **Global Education Partner of the Year 2023**
- **Global Customer Experience Partner of the Year 2022**
- **One of 4 UK providers with Azure Expert MSP status**
- **12 x Advanced Microsoft Specialisations**
- **Complete range of Solutions Partner designations (x 6) including Infrastructure (Azure), Digital & App Innovation (Azure), and Security**
- **Advania is one of only 4 providers in the UK (and one of 40 globally) to be recognised as (end-to-end) Solution Partner for Microsoft Cloud**

Specialist Knowledge: We have 8 x Microsoft MVP's (c.10% of the UK's total) as full-time permanent staff members who are directly involved in developing Microsoft's public offerings, including Microsoft Azure. This expertise in Microsoft technologies not only ensures our ability to deliver a successful outcome for the Buyers but also allows us to leverage our Microsoft relationship to support you in multiple ways.

Proven Track Record of Success: Over the last ten years, we have delivered a wide range of robust, scalable and future-proof cloud solutions for organisations across both the Public and Private sectors. This includes extensive experience in designing and deploying secure cloud landing zones, executing complex migrations, and modernising applications to fully leverage cloud-native capabilities.

Business Standards & Accreditations

Advania has achieved accreditation or certification in the following business and security standards:

The ISO 9001 accreditation provides our clients with the confidence that Advania consistently meets our client's expectations and regulatory requirements around service quality.

The ISO 27001 accreditation provides our clients with the assurance that Advania continually adheres to best practice standards relating to data security.

The ISO 22301 accreditation provides our clients with the comfort that Advania continually validates the maintenance and improvement of our business continuity management system.

The ISO 45001 accreditation provides our clients with the knowledge that Advania provides a safe and healthy working environment to our employees.

The Financial Services Supplier Qualification System (FSQS) is a framework that ensures suppliers to the financial services industry pass the required high standards to meet the needs of the buyers in the scheme.

Advania is an accredited supplier on the G-Cloud framework, offering a range of services to the public sector, including Managed Azure and Office 365 services.

ITIL Version 4 is the standard that the service desk uses to provide a single point of contact to users.

PRINCE2 is the standard that ensures our projects are accurately planned in measurable stages. PRINCE2 demands consistent project delivery and is flexible enough to scale to any size of project.

The Cyber Essentials certification provides our clients with the reassurance that Advania deploys controls to ensure we can defend against the most common forms of cyber attacks.

Advania adheres to the UK Data Protection Act 1998 and the EU Data Protection Directive (95/46/EC). Advania is registered with the Information Commissioner's Office (Registration No. ZA127305).
