

eSignature

Plans and Pricing

E-Sign is an eIDAS compliant, advanced electronic signature provider, enabling organisations to digitise the signing of documents and store them securely.

E-Sign provides a secure digital identification embedded into an electronic signature that is unique both to the signatory and the document. The document is then securely stored within an encrypted document storage facility located in the UK.

Why Choose E-Sign

Advanced Security Protocols

At E-Sign, security and privacy are at the heart of everything we do. With both the latest cyber and physical security measures in place, you can be sure that your data and network are protected with E-Sign.

Operating from our very own UK-based, ISO 27001-certified data centres, our state-of-the-art servers are and security processes are compliant with industry-recognised standards and procedures. We are also Cyber Essentials Plus certified, demonstrating the secure and robust IT systems we have in place.

As well as being highly accredited, we also have a range of security features in place to ensure that you benefit from additional security when using our platform, such as;

- *Selectable password strength*
- *Password and SMS protected documents*
- *2FA for password resets*
- *Single Sign-on*
- *Additional ID verification*
- *Digital certificate and advanced audit trail*

Fully Compliant GDPR and eIDAS eSignatures

E-Sign has several organisational and technical strategies, both in our information and security management policy and service level agreement to ensure we are fully compliant with GDPR legislation.

Our e-signatures cannot be denied legal effect and are admissible within legal proceedings. An E-Sign eSignature is created in accordance with the eIDAS regulation via our highly secure signature creation software that creates unique data that is used by signatory to automatically create their own electronic signature.

Hear what our customers think

“ The University of Oxford have appointed E-Sign as their preferred electronic signature platform. E-Sign quickly guided departments on the most cost-effective and efficient route offered, providing continued support to ensure contracts were completed and deadlines were met. ”

Purchasing Department, UNIVERSITY OF OXFORD

“ The law supports the use of electronic signatures, and E-Sign is an essential tool for any business wishing to enhance customer experience and accelerate revenue. E-Sign is incredibly user-friendly, and it has been a very positive experience both for me and my clients. ”

Simon Arthur, PARATUS LAW

“ E-Sign's platform is very easy to set up and intuitive to use. When we encountered issues, the E-Sign team were agile enough to respond, usually on the same day. The copy template feature has made setup with the new customers much easier too. ”

End User, NATIONAL CLINICAL HOMECARE PROVIDER

“ Using E-Sign has made our tenancy completion process so simple. You don't have to be technically savvy to be able to use the platform and it doesn't draw on any other ICT resources. Our tenancy agreements and documents are signed within minutes and we've had tenants comment on how easy it is to use as a signer which is fantastic. ”

Lisa Harber, MID DEVON DISTRICT COUNCIL TEAM LEADER

BEYONDLY

“ E-Sign has transformed our operations at Beyondly. Integrating E-Sign into our systems was relatively straight forward and has massively improved customer and team experience. We place a high value on our environmental impact and since conception, E-Sign has represented a 31.46kg saving of CO2 entering the atmosphere ”

Emily Rice, BEYONDLY OPERATIONS MANAGER
