Service Overview

For the past 20 years, The Anywhere Company has been providing consultancy services and SaaS software implementation services to clients in the UK and worldwide.

The TAC team will implement our Project and Portfolio Management solution and work with you to deliver a PMO service designed to support you from a technical, business user and PMO perspective.

The delivery of the LPMO Managed service frees up internal resource to enable more strategic tasks to be undertaken and achieves a more efficient and successful management of the project portfolio, with greater visibility and cost transparency.

Key Features of our LPMO Service Include:

PPM-Tooling

State of the art Project & Portfolio Management tooling ready and configured out-of-the-box, as a Software-as-a-Service offering with full support and maintenance.

Project Managers Toolkit

A simple framework that requires a low weekly time commitment to enable your project managers to report, regardless if they are a full time project manager, or just managing a project off the side of their desk.

PMO Staffing

LightingPMO provides highly experienced PMO Analysts to support your internal PMO staff.

Chasing Data

Our LightingPMO analysts will chase project status reports and timesheets on a weekly basis.

Quality Assurance of Data

Our analysts review the information provided by your project managers and identify missing or incorrect information.

Training

We provide methodology and tools for training, this is available on an ongoing basis in several formats: online, webinar and classroom.

Ad-hoc Support

Our analysts provide ad-hoc business and technical support by phone, email and real-time chat.

Data Administration

Our analysts will complete all the data administration tasks from managing drop-down lists, to setting up new users.

Changes & Enhancements

Periodically our team will keep the tooling aligned with your evolving organisation.

UK based

UK-based company with UK based resources for delivery and support.

On Boarding

Our on-boarding process is extremely simple.

1. Define the specific scope
2. Order
3. Deliver the benefits
4. Review

Each customer has slightly different needs and desired outcomes. The Anywhere Company partners with you to ensure you maximise your Return-on-Investment and have an easy experience.

Off Boarding

The Anywhere Company commits to provide the appropriate handover for the service.

Pricing

LPMO is delivered as an annual managed service based on user volumes. See separate pricing document.

Termination

If a customer needs to terminate, they may do so providing 90 days' notice subject to the Terms & Conditions.

About The Anywhere Company

TAC constantly endeavours to provide the best people-friendly technology and advisory and managed services to help organisations work better. Our focus has been to provide technology solutions and services for business to manage people, process and financials.

- We are a UK-based business with UK-based delivery resources.
- We provide delivery and support services for Project and Portfolio Management and other solution modules on The Anywhere Platform, including Governance Risk and Compliance and Strategic Performance Management.
- We partner with our customers, nurturing a close relationship for mutual success.
- We provide a high concentration of specific skills and understand how to bridge business and technology.
- Our experienced team brings you innovative and future-proof technology solutions and ensures you achieve the desired Return-On-Investment.
